MONTHLY TABLES

I. Public Assistance Programs: Applications and Cases: May, 1982 compared with selected earlier months 13-14

II. Minnesota Public Assistance Program: Recipients and Payments: May, 1982 compared with selected earlier months 15

III. Aid to Families with Dependent Children: Cases, Children and Payments by County: May, 1982 16-17

IV. General Assistance: Cases, Recipients and Expenditures: May, 1982 . . . 18-19

V. Medical Assistance: Recipients Concurrently Receiving SSI, MSA or AFDC: May, 1982 20-21

VI. Medical Assistance: Recipients Receiving Medical Assistance Only: May, 1982 22-23

VII. Supplemental Security Income and Supplemental Aid by County: May, 1982 24-25

TECHNICAL NOTES 26

GLOSSARY 27

May, 1982 in Summary

All Programs Expenditures totalled $95,606,412. This is $11,446,367 (13.6%) higher than April and $7,960,992 (9.1%) greater than one year ago. The rise in MA payments accounted for all of the April to May change as well as the annual change. The annual change was mitigated by declines in the AFDC and GA Programs because of restricted eligibility.

Recipients declined by 2,346 compared with April, 1982 and by 29,471 compared with May, 1981. The monthly change reflects fewer AFDC recipients. The annual trend reflects decreases in AFDC recipients and GA recipients, offset by increased MA recipients. The decreases in AFDC and GA recipients result from eligibility changes implemented in July, 1981 and February, 1982.

Aid to Families with Dependent Children (AFDC) May represents the fourth consecutive month of declining payment and case load levels. Payments were 0.5% below April, 1982 and 11.5% under May, 1981. Likewise, cases decreased 1.3% compared with the previous month and 20.0% fewer than one year ago. The downward trend occurring in the past four months is attributable to the implementation of policy changes contained in the Omnibus Budget Reconciliation Act. Also, April and May data reflect the effects of a small seasonal increase in employment, as can be observed by the reduction of 335 (6.0%) unemployed parent cases between March and May and by an 11.2% decrease in approvals over the same two-month period.

Cases receiving payments were at the lowest level since October, 1976, at which time the payment case load totalled 44,297. It is anticipated the declining case load will "bottom out" within the next month or two.

Emergency Assistance (EA) This program displayed a mixed pattern during May, marked by fewer families and recipients but slightly higher costs. The Utility emergency was the primary factor behind the expenditure change advancing $27,799 (11.8%) to $262,483. This was the highest Utility cost tallied during fiscal year 1982 and the second highest ever recorded. Only May, 1981, at $264,309, was greater. Hennepin County's increase of 89 cases (102.3%) and $49,419 (133.8%) sparked the May advance and contributed to the yearly high despite declines in the [illegible]rban and rural categories. Nearly 90% of Hennepin County's change involved AFDC families.

The table which follows shows the changes in the Utility category between April and May, 1982 and the advance within Hennepin County.

Emergency Assistance
Utilities
May, 1982 and April, 1982 Compared

	May, 1982			April, 1982		
	Cases	Persons	Payments	Cases	Persons	Payments
State	670	2,490	$262,482.93	701	2,682	$234,683.92
Urban	308	1,157	148,078.51	273	972	105,798.69
Hennepin	176	639	86,354.66	87	296	36,935.51
Ramsey	104	410	52,919.42	161	578	61,985.06
St. Louis	28	108	8,804.43	25	98	6,878.12
Suburban	180	664	63,232.74	225	897	70,265.58
Rural	182	669	$ 51,171.68	203	813	$ 58,619.65

Utility payments per family vary widely across Minnesota from a high of $480.77 in the urban counties to $281.16 in rural Minnesota. This is shown in the table below.

Utility Emergency
Average Expenditure Per Family
by Type of County
May, 1982

Type of County	Average Payment
Urban	$480.77
Hennepin	490.65
Ramsey	508.84
St. Louis	314.44
Suburban	351.29
Rural	281.16
State	$391.77

Families with Utilities emergencies were larger (3.72 recipients per family) than those with Eviction and Other emergencies (3.06 and 3.20 recipients per family respectively).

Compared with May, 1981, fewer families received EA, and a smaller percentage of those receiving EA were AFDC families. In May, 1981, 74.6% of the recipient families were receiving AFDC; this year that percentage is reduced to 64.5%. Both of these changes seem to result from the reduced AFDC case load.

Minnesota Supplemental Aid (MSA) Declining recipient numbers and higher expenditures marked the MSA Program during the month. Expenditures spurred by a sharp increase in the Disabled category surpassed March's total to set a new record.

Recipients numbered 10,150 during May, 46 (0.5%) fewer than April and 242 (2.3%) less than recorded one year ago.

Expenditures totalled $1,074,124. This was $55,892 (5.5%) higher than the previous month and $96,973 greater than May, 1981. It is also $42,627 above March's record-setting total.

The April to May expenditure change occurred within the Disabled category and was focused within Hennepin County. This county experienced higher corrective payments, $22,056, and lower refunds and cancellations, $22,426.34, which accounted for 85.7% of the total Disabled expenditure change and 79.6% of the total monthly expenditure growth.

The average grant per recipient totalled $105.83 in May, $11.80 (12.5%) ahead of last year.

The following table shows range in average grants computed for the categories of Adult Board and Care and Nursing Homes during May. Together, these two categories represent approximately 68% of the monthly recipient and account for nearly 57% of the payment total.

MSA
Adult Board and Care and Nursing Home Categories Compared
May, 1982

Category		Recipients	Expenditures	Average
Adult Board and Care	Total	1,821	$557,958	$306.40
	Aged	478	119,450	249.90
	Blind	20	5,468	273.40
	Disabled	1,323	$433,040	$327.32
Nursing Home Residents $10 for Personal Needs	Total	5,023	$ 50,230	$ 10.00
	Aged	1,467	14,670	10.00
	Blind	56	560	10.00
	Disabled	3,500	$ 35,000	$ 10.00

General Assistance (GA) The total number of persons receiving GA for May, 1982, was 7,874. This is 514 (6.1%) less than April, 1982, and 9,909 (55.7%) less than May, 1981. The average grant (gross dollars) per person for May, 1982, was $213.99. This was $1.29 (0.6%) less than April, 1982, and $53.10 (33.0%) more than May, 1981.

Application activity decreased compared to April. The number of applications received was 15.8% lower and the total applications on hand decreased by 13.9%. The number of applications disposed of decreased by 15.8% to 2,244. Of these, 1,753 (78.1%) were approved.

The 1,753 cases added in May brought the total cases eligible to 8,010. This was a decrease of 5.0% compared to April. Payments were made for 6,613 (82.6%) of the eligible cases. There were 1,940 cases closed which left 6,070 eligible cases continued to June.

Medical Assistance (MA) Expenditures during the month of May jumped to a record high of $76,645,183. This increase of 17.8% from last month was primarily a result of the processing of three warrant cycles during May. This semiannual occurrence limits the significance of most comparisons or conclusions that might otherwise be made. However, it is worth noting that the extra warrant cycle did not account for all of the increase. Nursing home payments also rose, and such payments are unaffected by the number of cycles. Rather, this resulted as the number of nursing home recipients rebounded to a normal level, after slumping in April.

The total number of MA recipients rose 5.7% to a level of 144,785. The increase of 7,806 was about one-quarter due to the rebound in the number of nursing home recipients, while the remainder of the change was primarily a function of the extra warrant cycle.

The year-to-year comparisons were also affected by the extra warrant cycle, causing a total increase in expenditures of 17.0%. However, if the area of long-term care is isolated, some valid comparisons may be drawn. When state institutional care is excluded, the growth in long-term care is 12.3%, accounting for some 38% of the increase from last year. This expenditure growth was accompanied by an expansion of only 4.1% in the number of recipients of long-term care. Apart from the effects of the third warrant cycle, long-term care is certainly the most influential factor in the year-to-year growth.

TOTAL	144,785	$76,645,183	$683,279,969

(1)This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the month.

(2)Recipient recoveries represent collections such as estate settlements, tort recoveries, etc. ... generally third party collections which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.

(3)An additional $8,865 was paid out for EPSDT services during the month; however, these charges were billed in a different fashion and are included under other service types such as Public Health Clinic, Physician/Osteopathic Services, etc. Existing reports do not break these charges out separately.

**Includes Lincoln, Lyon and Murray Counties.

***Includes Faribault, Martin and Watonwan Counties.

TECHNICAL NOTES

Table I Application activity for the AFDC Program does not include applications for medical only needs.

Table II Under MA, total Persons Concurrently Receiving AFDC are not included when calculating the total number of persons receiving assistance. This is done to unduplicate the total count since these people are already counted under the AFDC Program.

Table III This table does not include cases and payments made under the Emergency Assistance Program.

Table IV The sixteen (16) counties identified by the Census Bureau as metropolitan (i.e.; SMSA) are separated into urban and suburban. The urban counties are Hennepin, Ramsey, and St. Louis, and the suburban counties are the thirteen (13) other SMSA counties. These counties are noted (U) and (S) respectively.

Two multi-county agencies are labelled as follows: F-M-W HSB includes Faribault, Martin, and Watonwan Counties; Region VIII North includes Lincoln, Lyon, and Murray Counties.

Tables V & VI The Medical Assistance Program is broken into two components:

(1) Those recipients who had a vendor payment made in their behalf and are not concurrently receiving a money payment (the MA-Only group).

(2) Those recipients who are concurrently receiving a money payment (AFDC, SSI, MSA) and a medical vendor payment was also made in their behalf.

The counts are of people in whose behalf a payment was made out of the State's Centralized Medical Payments System during the month specified.

GLOSSARY

AFDC-UB	AFDC UB . . . An unborn child is included under the definition of child in the AFDC Program and grants are determined accordingly. For this reason, we have counted them as recipients. It is possible for a case which is currently receiving money under another subprogram (such as Unemployed Father or Regular AFDC) to receive an additional amount due to the presence of an unborn child. In instances such as this, the unborn will appear in the child count, but there will be no case or caretaker count since they are carried under the other subprogram.
EPSDT	Early Periodic Screening and Diagnostic Treatment
GAMC	General Assistance Medical Care
HMO	Health Maintenance Organization
Nursing Home ICF-I	Intermediate Care Facility (High Care)
ICF-II	Intermediate Care Facility (Minimum Care)
ICF-MR	Intermediate Care Facility (Mentally Retarded)
OAA-CCR	Old Age Assistance Concurrently Receiving Supplemental Security Income
OAA-MAO	Old Age Assistance, Medical Assistance Only
P.T., O.T., S.T. Audiology in Nursing Home	Physical Therapy, Occupational Therapy, Speech Therapy
Podiatrist Service	Specializing in Foot Care Services
State Institution MR (ICF)	Mentally Retarded, Intermediate Care Facility
SMSA	Standard Metropolitan Statistical Area is a county or a group of contiguous counties which contain at least one city of 50,000 population. In addition to the county of counties containing such cities, contiguous counties are included in such areas if they are essentially metropolitan in character and are socially and economically integrated.

VI. Medical Assistance: Recipients Receiving Medical Assistance Only: June, 1982 29-30

VII. Supplemental Security Income and Supplemental Aid by County: June, 1982 31-32

TECHNICAL NOTES 33

GLOSSARY 34

June, 1982 in Summary

All Programs Total expenditures were down $11.2 million compared with May largely because there were three Medical Assistance payrolls in May. AFDC expenditures were also down significantly compared with May. Expenditures were down $4.3 million compared with June, 1981, reflecting decreases of $2.0 (11.9%) million for AFDC and $1.2 (40.9%) million for General Assistance. Medical Assistance expenditures were down by $1.1 million compared with June, 1981, but the comparison is spurious because there were three Medical Assistance payrolls in June, 1981 and two in June, 1982.

Recipients were 42,063 fewer than in June, 1981. This decrease results from 25,950 fewer AFDC recipients and 9,982 fewer General Assistance recipients. Medical Assistance Only persons decreased by 4,362, but the comparison is with three payrolls in June, 1981.

The marked decreases in AFDC and General Assistance expenditures and recipients reflect eligibility changes in AFDC and General Assistance effective in July and August, 1981 and February, 1982.

Aid to Families with Dependent Children (AFDC) Cases and payments continued to decline, the trend since January, 1982. The decline begun in February, 1982, was prompted by implementation of further changes in federal policy, the most significant of which were restrictions on earnings disregard and work expense deductions and elimination of unborn children from payment status. Federal policy changes, coupled with seasonal variations, continued the downward movement through the current month. For example, the payment case load for June, 1982 was 6,731 (13.4%) fewer than for January, five months earlier.

The impact of the federal changes was felt primarily by the Regular and, of course, the Unborn segments. The Regular segment declined 12.5% in June over January. Seasonal factors were the most influential in reversing the rising unemployed parent payment case load. This category decreased 6.0% over this same time period, with the decline beginning in April, 1982.

Approvals rose 173 (6.5%) above May, 1982, with reopened cases comprising 55.2% of the total. The bulk of the openings, 2,046 (72.6%) were the result of continued absence of a responsible or supporting household member resulting in support being terminated or reduced. Closings conversely declined, decreasing 201 (6.0%). For every case closed, there were 0.89 openings.

Fiscal Year 1982

During fiscal year 1982, the AFDC Program exhibited sporadic fluctuations in costs, cases receiving payment, approvals and closings. This unusual vacillation was brought about as a result of the Omnibus Budget Reconciliation Act and was aided by court orders reversing already implemented policy changes. AFDC expenditures for the fiscal year ending June 30, 1982 were $4,577,692 (2.2%) less than in fiscal year 1981. The 7% increase in the basic standard on July 1, 1981 was offset by a 5,471 (10.1%) decrease in the average monthly number of cases receiving payment. Average grants rose $28.22 (8.8%) per case and $4.49 (3.8%) per person.

Unemployed parents remained the fastest expanding component of the program, with monthly average cases rising 36.3% over fiscal year 1981. (See separate tables on the Regular and Unemployed Parent segments on page 3.) Total approvals were 49,793, a gain of 7,435 (17.6%). Closings surpassed approvals by 4,113, rising to 53,906 or 11,538 (27.2%) higher than in the previous fiscal year.

In the current fiscal year, support collections totalled $19,506,862, a rise of $1,118,996 (6.1%) above such collections for fiscal year 1981. Support collections represented 8.7% of the total AFDC maintenance costs compared to 8.1% in fiscal year 1981.

The following graph compares by month the payment cases in fiscal year 1982 with those in fiscal year 1981.

Total Rural	2,005	+ 655	--	--	8,517	$ 11,251,690	$467.44	$110.10

Emergency Assistance (EA) During June, this program was influenced by a greater number of requests for assistance because of evictions. Fewer families requiring aid with utilities, however, diluted the monthly case and recipient advance.

Recipients numbered 4,158 in June, 117 (2.9%) more than May but 444 (9.6%) below one year ago. AFDC recipients represented 58.1% of the case load in June compared to 66.9% in June of last year and 51.7% in June, 1980.

Expenditures totalled $388,705, $15,236 (3.8%) less than June, but $24,909 (6.8%) ahead of one year ago.

The three emergencies showing the greatest fluctuation were Utilities, Eviction from Shelter and Migrant Family in Need. An increase in the number of migrant families is a typical occurrence in June. This year, the May to June change for this emergency was $16,750 (381.7%), which is similar to the $14,136 (202.6%) recorded last year. The emergencies having the greatest activity were Utilities and Evictions. These emergencies are shown in the tables below.

Utilities
AFDC and Other Families Compared by Type of County
June, 1982

	Total		AFDC		Other Families (Non-AFDC)	
	Cases	Payments	Cases	Payments	Cases	Payments
State	552	$211,205	347	$131,464	205	$ 79,741
Urban	311	141,778	224	95,937	87	45,841
Hennepin	204	102,498	149	70,084	55	32,414
Ramsey	61	25,010	47	18,007	14	7,003
St. Louis	46	14,271	28	7,847	18	6,424
Suburban	109	36,776	59	19,183	50	17,593
Rural	132	$ 32,651	64	$ 16,344	68	$ 16,307

Eviction
AFDC and Other Families Compared by Type of County
June, 1982

	Total		AFDC		Other Families (Non-AFDC)	
	Cases	Payments	Cases	Payments	Cases	Payments
State	263	$ 97,377	185	$ 62,927	78	$ 34,450
Urban	210	78,935	160	54,090	50	24,845
Hennepin	190	69,507	149	51,200	41	18,307
Ramsey	17	9,016	8	2,478	9	6,538
St. Louis	3	412	3	412	--	--
Suburban	24	8,785	14	5,165	10	3,620
Rural	29	$ 9,657	11	$ 3,672	18	$ 5,985

It should be noted that these emergency categories are influenced by a high rate of utilization in Hennepin County which exceeds the other urban counties and other county categories. The following table shows this clearly.

Utilities and Evictions
Rate of AFDC Utilization
June, 1982

		Utilities		Evictions	
	June Cases	Cases	Rate	Cases	Rate
State	43,598	347	0.8	185	0.4
Urban	21,840	224	1.0	160	0.7
Hennepin	11,752	149	1.3	149	1.3
Ramsey	6,494	47	0.7	8	0.1
St. Louis	3,594	28	0.8	3	0.1
Suburban	8,380	59	0.7	14	0.2
Rural	13,378	64	0.5	11	0.1

During the 1981-1982 heating season, $1,671,823 was spent for Utilities by the county agencies. This represents 43.7% of the EA expenditures during fiscal year 1982. This emergency category is shown below.

Emergency Assistance
Utilities
Fiscal Year 1982

	Cases	Persons	Payments
July, 1981	577	1,966	$ 170,314.92
August	447	1,635	121,492.53
September	410	1,434	113,370.70

March	470	1,776	129,571.34
April	747	2,839	247,637.06
May	690	2,558	269,042.04
June	556	2,019	211,891.02
Total	5,558	20,270	$1,671,822.74
Average Per Month	463	1,689	$ 139,318.56

The Emergency Assistance Program declined during fiscal year 1982. The number of cases fell by 21.9%, persons by 19.9% and expenditures by 13.6%. One factor behind this decline was the eligibility restrictions which were imposed during the year. AFDC cases fell from the 953 per month level in fiscal year 1981 to 711 in fiscal year 1982.

Cases averaged 1,094 during the year, 307 (21.9%) more than fiscal year 1981. The urban counties were responsible for the yearly change with Hennepin, Ramsey and St. Louis Counties off 70 cases (13.2%), 224 (61.4%) and 29 (37.7%) respectively.

Fiscal year expenditures totalled $3,827,368, a decline of $604,327 (13.6%) from fiscal year 1981. Costs incurred by the urban counties, at $2,359,327, represented 61.6% of the state total. This was $774,725 (24.7%) lower than fiscal year 1981. The suburban and rural each sustained increases, the suburban up $90,973 (15.5%) and the rural up $79,425 (11.2%).

The average monthly payment per case was $291.39 in 1982, $27.88 (10.6%) higher than the previous year. The average number of persons per family was 3.5, slightly higher than the 3.4 recorded in 1981.

Minnesota Supplemental Aid (MSA) In June, 10,105 aged, blind and disabled received assistance. This represents another month of program contraction and is the lowest monthly recipient total recorded during fiscal year 1982. The Aged category displayed the largest numerical change, off 28 recipients (1.0%). This was followed by the Disabled category, down by 15 persons (0.2%), and the Blind, which lost two recipients (1.0%). The annual trend shows that the number of MSA recipients has fallen by 232 (2.2%) during the past year. Approximately 86% of this was because of the attrition of the Aged category.

Monthly expenditures were $1,010,569. This was 5.9% lower than May but 1.5% ahead of one year ago. Approximately 63% of the May to June decline occurred in the urban counties, particularly in St. Louis and Hennepin Counties. Here, $29,505 or 46.4% of the monthly change occurred within the Disabled category and resulted from more June refunds and cancellations, up $11,558 in Hennepin County and lower corrective payments, off $13,001.92 in St. Louis County.

Recipients averaged 10,202 per month during fiscal year 1982. This was 219 (2.1%) fewer than recorded last year. Declining recipient numbers, coupled with rising costs, bolstered the average monthly grant causing it to advance 10.2% from fiscal year 1981.

The expenditure for fiscal year 1982 totalled $11,952,939. The growth of fiscal year expenditures since the implementation of the MSA Program has been persistent, as noted in the table below and in the graph which follows.

Minnesota Supplemental Aid
Changes in Expenditures and Monthly Grants
Fiscal Years 1974 - 1982

Fiscal Year	Fiscal Expenditure	% of Change	Average Monthly Grant Per Person	% of Change
1974 (½ year)	$ 2,709,366		$44.21	
1975	5,252,641	- 3.1%*	50.42	14.0%
1976	5,222,438	- 0.6%	62.54	24.0%
1977	5,285,057	1.2%	77.58	24.0%
1978	6,871,337	30.0%	53.58	-32.2%

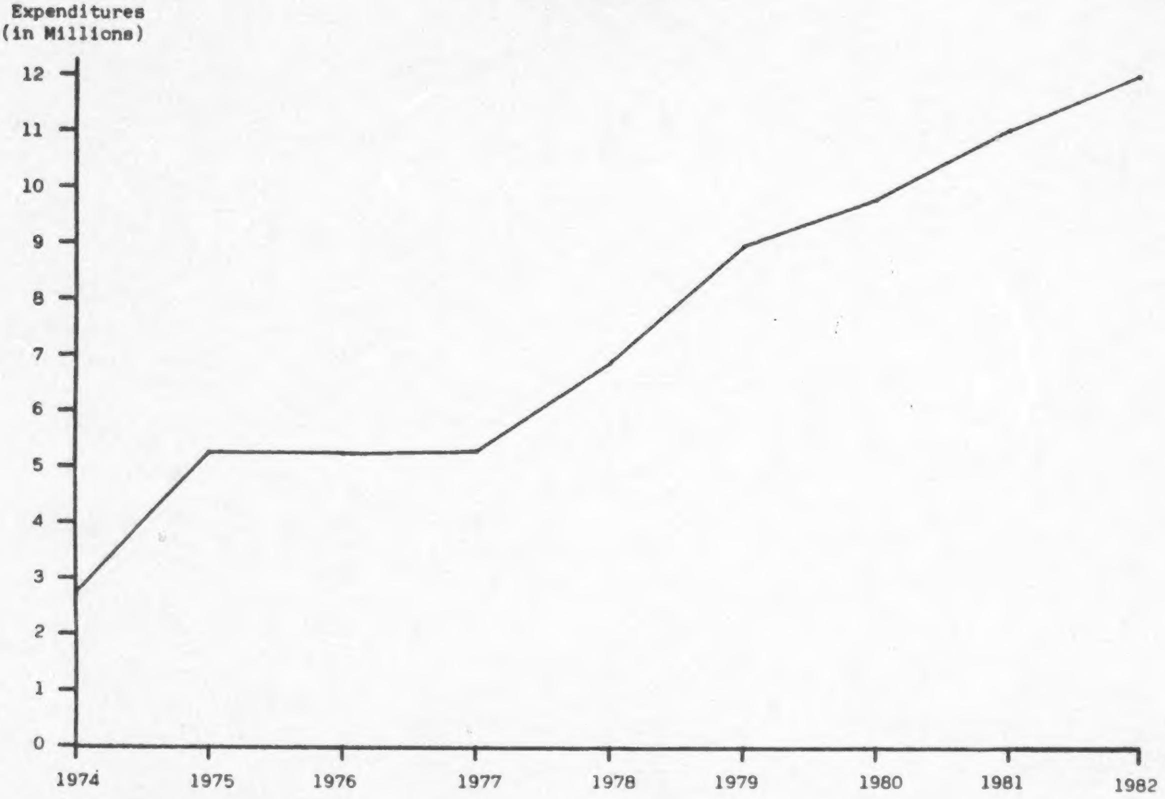
1980	9,808,386	9.6%	76.28	11.8%
1981	11,082,771	13.0%	88.62	16.2%
1982	$11,952,939	7.9%	$97.64	10.2%

*1974 expanded for comparison purposes.

Minnesota Supplemental Aid
Expenditures
Fiscal Years 1974 - 1982



General Assistance (GA) June 1982 brings to a close one full year since the GA Program changed so that, in addition to the requirements regarding income and property, individuals are currently eligible for state GA only if they meet the requirements of one of the specific eligibility categories. Eight eligibility categories were part of the state GA Program beginning July 1981, and in March 1982 the SSI applicant category was added. (See the following table.) The last eligibility type, optional county GA, has no state financial participation and no state eligibility requirements.

*About 30% of Hennepin's data breakdown by eligibility type was not reported but has been estimated here. May was the first month Hennepin County provided data by eligibility type.

The fiscal year ending June 30 1982 has been a year of marked change in the GA Program. The introduction of eligibility categories dramatically reduced the number of GA recipients. The increased federal property restrictions for AFDC affected GA property limits, as well, because GA limits are based on AFDC limits. DPW's definition of "marketable job skills", which became effective in March 1982, barred from eligibility all persons with work capability regardless of current job market limitations. This definition eliminated from eligibility persons previously deemed eligible by county definition for five weeks of benefits per year.

The data for the 30-month period from January 1979 through June 1981 show the existence of factors, other than the monthly unemployment trend alone, which have contributed to the increase in GA recipients. Such factors have not been isolated. However, they surely include economic stress (attributable to the duration and magnitude of unemployment) and changing public opinion regarding which people truly need GA. The effect of these factors has been a stronger upward trend in GA recipients which is not explained by the unemployment trend. The strength of this upward trend during this 30-month period is indicated by the correlation of .916 between the GA recipients monthly trend and the progression of months (i.e., January = 1, February = 2, March = 3, etc.). The average month-to-month change in GA recipients during the period is the sum of an increase by 179 for each 10,000 increase in unemployment plus an increase by 237 for each advancing month.

Even before the July 1981 program changes, the GA Program's relationship to labor market conditions appears to have lessened somewhat. Increasingly, GA was becoming a program for individuals who were prevented from employment by incapacity or who needed a sheltered living arrangement (e.g., room and board or battered women's shelter). This change is evident in the decreasing correlation between the number of unemployed persons in Minnesota and the number of GA recipients:

Time Period	Correlation
Jul 74 - Dec 76	.887
Jan 77 - Dec 78	.790
Jan 79 - Jul 81	.734
Sep 81 - Jun 82	.481

These figures show a significant decrease in the relationship between unemployment and GA prior to the July 1981 program change and a virtual severence of the GA Program from labor market attachment following July 1981.

Medical Assistance (MA) With the conclusion of the State Fiscal Year (SFY), it is possible to make some observations about the direction of the Medicaid Program. The price tag attached to this program rose to nearly three-quarters of a billion dollars during SFY 82. That amount was expended for fewer recipients than during the prior year, as shown in the following table:

SFY	Expenditure	% Change	Average Monthly Recipients	% Change	Average Monthly Cost Per Recipient
1982	$749,590,946	+14.0	134,906	- 0.4	$463.03
1981	657,814,974	+16.1	135,472	+10.6	404.64
1980	566,368,921	+22.7	122,524	+ 4.0	385.21
1979	461,615,020	+13.3	117,761	- 0.8	326.66
1978	407,486,537	+10.8	118,737	+ 4.4	285.99
1977	367,624,575	+14.3	113,756	- 1.1	269.31
1976	321,575,493	+23.1	115,006	-11.5	233.01
1975	$261,226,844	--	129,960	--	$167.50

As this table shows, costs have increased 187.0% over this period of years, while the average number of monthly recipients has been relatively constant with a net increase of only 3.8%.

The major portion of the expenditure for MA continues to result from the long-term care program. Therefore, the next table isolates costs of long-term care for the same period tabulated above.

SFY	Expenditure	% Change	Average Monthly Recipients	% Change	Average Monthly Cost Per Recipient
1982	$497,579,351	+15.8	35,168	+ 2.5	$1,179.05
1981	429,773,055	+15.9	34,295	+ 2.9	1,044.29
1980	370,713,432	+27.2	33,319	+ 5.8	927.19
1979	291,438,612	+13.5	31,493	+ 1.2	771.17
1978	256,886,540	+16.3	31,121	+ 1.5	687.87
1977	220,863,934	+19.2	30,672	+ 1.9	600.07
1976	185,226,051	+20.6	30,110	- 2.7	512.64
1975	$153,618,860	--	30,948	--	$ 413.65

The expenditure for long-term care has risen 223.9% over the period, while the average number of recipients per month has increased only 13.6%. It is significant that long-term care has been between 57.6% and 66.4% of the total MA expenditure, and this percentage has generally been increasing from year to year.

Moreover, these figures do not include the costs of ancillary services for recipients of long-term care. This further increases the costs associated with long-term care. A detailed look at this component will be presented next month.

(excluding Food Stamps, General Assistance Medical Care
and Supplemental Security Income)

(1) This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the month.

(2) Recipient recoveries represent collections such as estate settlements, tort recoveries, etc. ... generally third party collections which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.

(3) An additional $30,631 was paid out for EPSDT services during the month; however, these charges were billed in a different fashion and are included under other service types such as Public Health Clinic, Physician/Osteopathic Services, etc. Existing reports do not break these charges out separately.

*May not add due to rounding.

**Includes Lincoln, Lyon and Murray Counties.

***Includes Faribault, Martin and Watonwan Counties.

TECHNICAL NOTES

Table I	Application activity for the AFDC Program does not include applications for medical only needs.
Table II	Under MA, total Persons Concurrently Receiving AFDC are not included when calculating the total number of persons receiving assistance. This is done to unduplicate the total count since these people are already counted under the AFDC Program.
Table III	This table does not include cases and payments made under the Emergency Assistance Program.
Table IV	The sixteen (16) counties identified by the Census Bureau as metropolitan (i.e.; SMSA) are separated into urban and suburban. The urban counties are Hennepin, Ramsey, and St. Louis, and the suburban counties are the thirteen (13) other SMSA counties. These counties are noted (U) and (S) respectively. Two multi-county agencies are labelled as follows: F-M-W HSB includes Faribault, Martin, and Watonwan Counties; Region VIII North includes Lincoln, Lyon, and Murray Counties.
Tables V & VI	The Medical Assistance Program is broken into two components:

(1) Those recipients who had a vendor payment made in their behalf and are not concurrently receiving a money payment (the MA-Only group).

(2) Those recipients who are concurrently receiving a money payment (AFDC, SSI, MSA) and a medical vendor payment was also made in their behalf.

The counts are of people in whose behalf a payment was made out of the State's Centralized Medical Payments System during the month specified.

GLOSSARY

AFDC-UB	AFDC UB . . . An unborn child is included under the definition of child in the AFDC Program and grants are determined accordingly. For this reason, we have counted them as recipients. It is possible for a case which is currently receiving money under another subprogram (such as Unemployed Father or Regular AFDC) to receive an additional amount due to the presence of an unborn child. In instances such as this, the unborn will appear in the child count, but there will be no case or caretaker count since they are carried under the other subprogram.
EPSDT	Early Periodic Screening and Diagnostic Treatment
GAMC	General Assistance Medical Care
HMO	Health Maintenance Organization
Nursing Home ICF-I	Intermediate Care Facility (High Care)
ICF-II	Intermediate Care Facility (Minimum Care)
ICF-MR	Intermediate Care Facility (Mentally Retarded)
OAA-CCR	Old Age Assistance Concurrently Receiving Supplemental Security Income
OAA-MAO	Old Age Assistance, Medical Assistance Only
P.T., O.T., S.T. Audiology in Nursing Home	Physical Therapy, Occupational Therapy, Speech Therapy
Podiatrist Service	Specializing in Foot Care Services
State Institution MR (ICF)	Mentally Retarded, Intermediate Care Facility
SMSA	Standard Metropolitan Statistical Area is a county or a group of contiguous counties which contain at least one city of 50,000 population. In addition to the county of counties containing such cities, contiguous counties are included in such areas if they are essentially metropolitan in character and are socially and economically integrated.
TB	Tuberculosis

NOTE TO THE USER

Several changes have been made to the format and contents of the Summary of Minnesota Public Assistance Trends beginning with this month's issue:

1. A summary table titled "Minnesota Public Assistance Activity", formerly Table II, is featured at the beginning of the report. Data on Supplementary Security Income and General Assistance Medical Care have been added to this table. The table now shows separate totals of expenditures and recipients for cash assistance programs and medical programs. Other additions are General Assistance net expenditure data and a breakdown of Medical Assistance average payment by MA-Only persons, SSI/MSA recipients, and AFDC recipients.

2. The Public Assistance Programs trend table includes Supplemental Security Income and General Assistance Medical Care.

3. A Food Stamps trend table has been added.

4. The General Assistance trend table includes total net expenditure data. All other items in this table continue to be based on gross expenditures.

5. A General Assistance Medical Care trend table has been added.

6. A table of General Assistance Medical Care expenditures by category of service has been added.

7. A table of General Assistance recipients and payments by type of eligibility has been added.

8. A preliminary report on October, 1982 is added at the end of this (July, 1982) issue. The latest available preliminary report will be added to each issue unless it has been published in a previous edition.

We hope these changes and additions will make thi [illegible]port more useful. Readers are invited to send comments and criticisms to:

Minnesota Department of Public Welfare

PROGRAM NOTES

Aid to Families with Dependent Children (AFDC) July, 1982 marked an upturn in the number of cases paid. This contrasts sharply with the previous five months (February - June), which displayed an uninterrupted downward trend. During this period, paid cases declined 6,731 (13.4%). In contrast to the case increase in July, payments decreased as a result of increased IV-D support collections of $985,710 above June, 1982.

Approvals in July exhibited a substantial increase of 742 (25.5%) cases compared with the previous month. Of the approvals, new cases rose 370 (35.2%), whereas reopened cases increased 339 (21.8%). Reasons for approvals showing marked increases were continued absence of a responsible or supporting household member resulting in support being terminated or reduced; loss or reduction of employment of the responsible or supporting household member due to layoff, discharge of her/his own initiative; and case reopened as client returned eligibility review or fulfilled other program requirements.

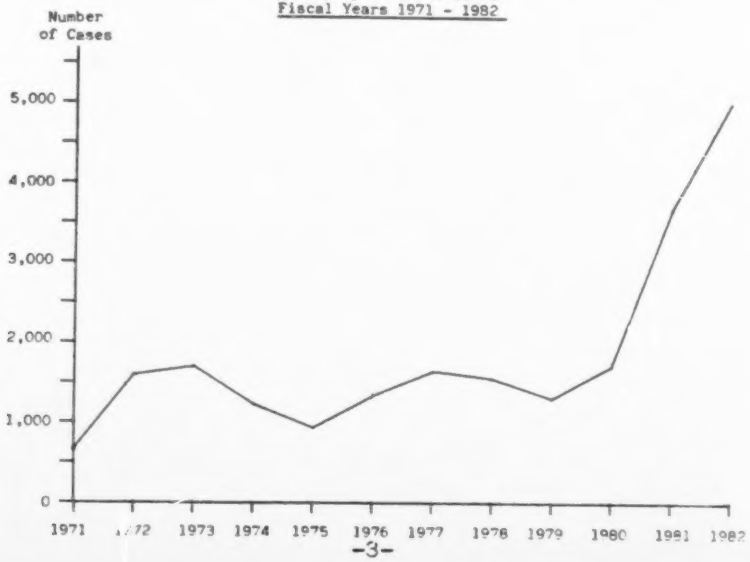
Closings declined 86 (2.7%) cases. The number of closings affected by changes in federal policy were:

	Number
1. Gross earnings exceeding 150% Standard Basic Needs	190
2. Expiration of the $30 and 1/3 disregard	26
3. Other earned income	51
4. Other (factor other than earned income, such as lump sum)	93
Total	360

For every case closed, there were 1.2 cases opened.

Unemployed Parent paid cases, whose following numbers experienced three successive months of decline, increased by 119 (2.4%). Approvals totalled 806, an advance of 231 (40.2%). During July, reopened cases were most numerous, comprising 51.7% of the total. The rural counties reported 322 Unemployed Parent openings during July which represented 40.0% of the approvals, thereby surpassing both urban and suburban counties. The following graph displays the monthly average number of Unemployed Parent cases receiving assistance from fiscal years 1971 through 1982.

Monthly Average Number of
Unemployed Parent Cases
Fiscal Years 1971 - 1982



It should be noted that the UP category was relatively stable between fiscal years 1972 and 1979, with the exception of a dip in 1974 and again in 1975. Fiscal year 1980 experienced a sharp advance but it was overshadowed by the unprecedented increases registered during fiscal years 1981 and 1982.

Emergency Assistance (EA) Lower activity within the category of Utilities prompted a decline in the program during July. EA cases fell by 16 (1.4%) from June while expenditures decreased by $48,964 (12.6%) in response to the reduction in utility assistance.

Five hundred (500) families received help with utilities during the month, 52 (9.4%) fewer than received during June. This assistance cost $159,117, a reduction of $52,088 (24.7%) from the previous month. The influence of this category was muted somewhat by an increase in the number of families facing eviction, up 40 (15.2%) to 303, and in the expenditure for this emergency, up $9,031 (9.3%) to $106,408.

Families served during July numbered 1,137 while expenditures totalled $339,741.

The table below shows the assistance provided to migrant families during fiscal years 1982 and 1981. The assistance provided during these two years is similar, $99,881 in fiscal year 1982 vs. $104,143 the previous year. Of note is that families receiving assistance during fiscal year 1982 average five per month fewer than the previous year while the average monthly assistance provided increased by $25.52 (10.9%) to $260.09.

	Fiscal Year 1982			Fiscal Year 1981		
	Cases	Persons	Payments	Cases	Persons	Payments
July, 1981	55	239	$12,127	80	329	$ 19,212
August	38	123	8,070	39	130	9,504
September	41	148	12,774	38	139	12,105
October	37	121	10,445	33	122	9,838
November	29	88	7,782	22	77	5,935
December	19	67	4,094	27	106	7,230
January, 1982	19	62	4,348	19	67	4,578

March	22	73	6,448	16	48	3,840
April	14	57	4,580	8	27	2,217
May	14	49	4,388	38	153	6,977
June	78	389	$21,138	106	461	$ 21,113
Fiscal Year Total	379	1,452	$99,881	441	1,719	$104,143
Average	32	121	$ 8,323	37	143	$ 8,679
Average Per Case			$260.09			$234.57

Minnesota Supplemental Aid (MSA) This program was marked by falling recipient levels and higher payments during July. Cases totalled 9,947, 158 (1.6%) fewer than June. Most of the change occurred in the Disabled category, which declined by 102 (1.4%), the Aged and Blind categories fell by 50 (1.8%) and 6 (3.8%) respectively. Of the recipient change, 52% was concentrated in the urban counties and was in response to a reduction in the number of current cases, off 63; however, more refunds and cancellations (22) also played a part.

Expenditures reached $1,061,698 during July, $51,129 (5.1%) more than June and 109,000 (11.4%) higher than one year ago. The urban counties of Hennepin and St. Louis spurred the advance by recording higher corrective payment levels. These payments between June and July rose by $14,712 in Hennepin County and by $35,777 in St. Louis County. As a result, 87.6% of the expenditure change was accounted for by Hennepin and St. Louis Counties.

General Assistance (GA) On July 1st of prior years, there have been increases in the state standards for GA payments, but there was no increase in July 1982. The percent changes in the average payment per person from one July to the next are shown below along with the percent of increase in the standards.

Year	Percent Increase in Average Payment Per Person from Prior Year	July 1st Percent Increase in State Standards
1977	5.8%	5%
1978	2.4%	5%
1979	7.1%	7%
1980	5.4%	7%
1981	26.5%	7%
1982	25.6%	0%

The particularly high percentages for 1981 and 1982 are not caused by the changes in standards but by changes in the eligibility requirements. Many of the lower payment cases lost their eligibility in July 1981 and more of these lost eligibility in the months that immediately followed. Thus, the remaining cases are those which receive higher payments.

General Assistance Medical Care (GAMC) This program provides medical care, through vendor payments, for needy individuals who are not eligible for Medical Assistance. General Assistance recipients are automatically eligible for GAMC. Other recipients (GAMC-Only) must meet income and property requirements established by state law.

From the beginning of the program on January 1, 1976 until July 1, 1981, GAMC paid for a full range of medical services. Effective July 1, 1981, GAMC coverage was restricted by law to six types of service: inpatient hospital, physician services, outpatient hospital, dental services, prescribed drugs, and medical transportation. This limitation on GAMC services was made by the Legislature to contain GAMC costs.

Effective with services rendered July 1, 1981, state law also authorized rateable reduction of GAMC payments. The maximum reductions permitted were as follows:

45% for inpatient or outpatient hospital care with a primary diagnosis of chemical dependency or mental illness;

35% for all other inpatient hospital care;

25% for all other covered services.

DPW was authorized to apply the rateable reductions if needed to limit GAMC expenditures to the amount appropriated for the program. One-half of the maximum rateable reductions was applied effective July 1, 1981, and the full rateable reductions were applied effective November 1, 1981.

As a result of these limitations and reductions, GAMC expenditures in fiscal year 1982 were $38.8 million, down from $52.2 million in fiscal year 1981. The following table summarizes total GAMC expenditures from the beginning of the program through fiscal year 1982:

General Assistance Medical Care Expenditures

Fiscal Year	Total Expenditures	% Change from Prior Year
1976 (6 months)	$ 4,373,592	
1977	24,539,844	+461.1
1978	31,937,564	+ 30.1
1979	34,467,720	+ 7.9
1980	40,613,586	+ 17.8
1981	52,231,201	+ 28.6
1982	$38,840,201	- 25.7

Medical Assistance (MA) Tables provided in last month's report summarized the cost increases for MA since SFY 1975, with annual increases ranging from 10.8% to 23.1%. As was shown for the same period, annual cost increases for Nursing Home payments ranged from 13.5% to 27.2%. As noted at that time, the Nursing Home payments do not include costs of ancillary care provided for recipients of Nursing Home care.

Ancillary care includes such items as physical therapy, physicians' services, dental care, and optometric services. These costs are added to payments for long-term care, producing a total expenditure for recipients of Nursing Home care. Since records of ancillary costs were not maintained until calendar year 1975, that information is not available for SFY 1975.

SFY	Long-Term Care Expenditure	Ancillary Care Expenditure	Annual % Change	Total Nursing Home Expenditure	% of Total MA Costs
1982	$497,579,351	$47,749,472	7.0	$545,328,823	72.8
1981	429,773,055	44,631,196	14.8	474,404,251	72.1
1980	370,713,432	38,878,162	22.7	409,591,594	72.3
1979	291,438,612	31,675,317	24.6	323,113,929	70.0
1978	256,886,540	25,425,820	21.8	282,312,360	69.3
1977	220,863,934	20,882,929	14.1	241,746,863	65.8
1976	$185,226,051	$18,304,956	--	$203,531,007	63.3

As shown, the MA costs associated with care for recipients of long-term care are accounting for a larger share of the total MA costs nearly every year. The increase is attributable to the actual costs of long-term care rather than ancillary care. The ancillary care cost component has remained relatively stable as a percent of total MA expenditures.

SFY	Total MA Expenditure	Long-Term Care as Percent of MA Total	Ancillary Care as Percent of MA Total	Total Percent
1982	$749,590,946	66.38	6.37	72.75
1981	657,814,974	65.33	6.78	72.12
1980	566,368,921	65.45	6.86	72.32
1979	461,615,020	63.13	6.86	70.00
1978	407,486,537	63.04	6.24	69.28
1977	367,624,575	60.08	5.68	65.76
1976	$321,575,493	57.60	5.69	63.29

TOTAL	121,232	$65,756,566	$65,756,566

(1)This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the month.

(2)Recipient recoveries represent third party collections such as health insurance payments, tort recoveries, and estate settlements, which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.

(3)An additional $54,105 was paid out for EPSDT services during the month; however, these charges were billed in a different fashion and are included under other service types such as Public Health Clinic, Physician/Osteopathic Services, etc. Existing reports do not break these charges out separately.

TECHNICAL NOTES

Public Assistance Programs: Applications and Cases Table	Application activity for the AFDC Program does not include applications for medical only needs.
Minnesota Public Assistance Activity Table	Under MA, total Persons Concurrently Receiving AFDC are not included when calculating the total number of persons receiving assistance. This is done to unduplicate the total count since these people are already counted under the AFDC Program. The GA total net payment data is preliminary and subject to occasional change, so the figures for earlier months may be different from the figures originally published for those months.
Table I	This table does not include cases and payments made under the Emergency Assistance Program.
Table III	The sixteen (16) counties identified by the Census Bureau as metropolitan (i.e., SMSA) are separated into urban and suburban. The urban counties are Hennepin, Ramsey and St. Louis, and the suburban counties are the thirteen (13) other SMSA counties. These counties are noted (U) and (S) respectively. Two multi-county agencies are labelled as follows: F-M-W HSB includes Faribault, Martin and Watonwan Counties; Region VIII North includes Lincoln, Lyon and Murray Counties.
Tables VI & VII	Recipients are people on whose behalf payments were made during the specified month by the State's centralized medical payment system. Recipients are divided into two categories: (1) Those whose Medical Assistance eligibility is based on receipt of cash assistance from AFDC, SSI or MSA. (2) Those whose Medical Assistance eligibility is not based on receipt of cash assistance from those programs (MA-Only recipients).

GLOSSARY

EPSDT	Early and Periodic Screening, Diagnosis and Treatment
HMO	Health Maintenance Organization
Nursing Home ICF-I	Intermediate Care Facility (High Care)
ICF-II	Intermediate Care Facility (Minimum Care)
ICF-MR	Intermediate Care Facility (Mentally Retarded)
P.T., O.T., S.T. Audiology in Nursing Home	Physical Therapy, Occupational Therapy, Speech Therapy
State Institution MR (ICF)	Mentally Retarded, Intermediate Care Facility
SMSA	Standard Metropolitan Statistical Area is a county or a group of contiguous counties which contain at least one city of 50,000 population. In addition to the county or counties containing such cities, contiguous counties are included in such areas if they are essentially metropolitan in character and are socially and economically integrated.
TB	Tuberculosis

PROGRAM NOTES

Aid to Families with Dependent Children (AFDC) Cases receiving payment continued the upward movement begun in July, 1982, rising 2.3%. This is an indication that the decline in the payment case load which resulted from policy changes and regulations implemented in February has ended.

The major case change occurred within the urban counties which increased 2.8%, followed by the rural counties at 1.9% and the suburban counties at 1.8%. Of the urban counties, St. Louis reported a case rise of 4.9%, a reflection of the severely depressed economic conditions in that area. The Unemployed Parent segment rose most rapidly with an increase of 8.9% in contrast to 1.4% for the Regular segment. Unemployed parents residing in the urban counties increased 14.0% compared to 6.1% and 5.6% for their counterparts in the suburban and rural counties, respectively. The increase in Unemployed Parent cases was caused by the expiration of the Unemployment Insurance Extended Benefit Program in July. Claimants received their last check in the second and third weeks in July. Possibly, this also contributed something to the rise in the Regular segment.

Payments rose at a slower pace than cases, primarily the result of an increase in IV-D collections of $372,410. This rise in support collections is related to Project Intercept, a federal income tax refund interception process which allows support payments in arrears to be deducted from federal tax refunds.

Approvals increased 172 (5.2%) cases from July, 1982. Reopened cases comprised 50.8% of all approvals compared with 53.2% for July. The suburban counties reported the highest rate of reopened cases (55.3%). Of the total approvals, 966 (25.9%) were Unemployed Parent cases. Unemployed Parent approvals were 19.9% greater than in the previous month of July. The increase was the least in the suburban counties (7.1%).

Closings remained stable, declining 1.5%. For every case closed, there were 1.2 cases opened.

Emergency Assistance (EA) Lower utilization distinguished this program during August. Both the AFDC and [illegible]AFDC categories registered recipient declines of approximately 3%. Families served numbered 1,104 during the month, 33 (2.9%) fewer than July.

Expenditures totalled $351,477 in August, $11,736 (3.5%) higher than July. This advance was focused in the non-AFDC category which advanced $15,712 (11.3%) to $154,827. This occurred because of higher rate of evictions numbering 138 during the month, up 40 cases (40.8%). These emergencies required $54,270.52, $13,670 (33.7%) more than was needed during July.

The emergencies experiencing the greatest monetary change were Evictions up $17,585 (16.5%) and Utilities down $17,019 (10.7%). The Other category also demonstrated considerable change, advancing $14,464 (40.0%). The non-AFDC component accounted for 43.9% of the change within this category.

The following tables show the emergencies of Eviction and Other for non-AFDC families by type of county.

Emergency Assistance for Non-AFDC Families Evictions

	August			July		
	Cases	Persons	Payments	Cases	Persons	Payments
State	138	448	$54,270.52	98	340	$40,600.42

Rural	9	29	$ 5,264.69	15	65	$3,284.84

*Dakota County recorded a refund cancellation of $1,600.00.

Minnesota Supplemental Aid (MSA) This program sustained a recipient and expenditure decline during August. Recipient numbers fell by 32 (0.3%) to 9,915, a sum that is 290 (2.8%) less than one year ago. Expenditures totalled $1,005,766, a decline of $55,932 (5.3%) from the previous month.

The average August grant totalled $101.44, the fifth month since January that the $100.00 level has been exceeded. The Disabled category, which averaged $111.43, was again responsible for this threshold being maintained.

The decline in August's case load occurred in Dakota (-5), Freeborn (-10), McLeod (-4), Mower (-5), Pennington (-4), Sibley (-4) and Waseca (-24) Counties. Waseca County makes $10 payments for clothing and personal needs to boarding home residents at quarterly intervals, such as in July.

The expenditure change resulted from reduced payments in Hennepin County, off $50,043.29, due primarily to lower corrective payments in August, off $24,310.83, and greater refunds and cancellations, up $22,121.95 from July. Hennepin County's expenditure decline represented 89.5% of the monthly payment change.

The table below shows the living arrangements of MSA recipients as taken from the Welfare Information System for June, 1982. As can be seen, the majority (70.6%) require residential care. Only 22.8% reside in their own home or in a rented situation.

Minnesota Supplemental Aid
Living Arrangements of Recipients
June, 1982

Living Arrangement	Recipients	Percent
SNF	1,309	13.1%
ICF-I	1,253	12.5%

Halfway House	18	0.2%
Private Group Home	61	0.6%
Other	66	0.7%
Total	9,993	99.9%

General Assistance (GA) The total number of persons receiving GA for August, 1982, was 7,884. This was 21 (0.3%) more than July, 1982, and 3,038 (27.8%) less than August, 1981. The average grant (gross dollars) per person for August, 1982, was $223.12. This was $6.86 (3.2%) more than July, 1982, and $56.27 (33.7%) more than August, 1981.

Application activity increased compared to July. The number of applications received was 21.0% higher and the total applications on hand increased by 15.5%. The number of applications disposed of increased by 15.2% to 2,838. Of these 1,831 (64.5%) were approved.

The 1,831 cases added in August brought the total cases eligible to 8,082. This was an increase of 1.9% compared to July. Payments were made for 6,925 (85.7%) of the eligible cases. There were 1,764 cases closed which left 6,318 eligible cases continued to September.

Medical Assistance (MA) It was just two years ago that the number of recipients surpassed 120,000 in a single month. Since that time, the monthly figures have fluctuated as high as 162,000 during three-warrant months, but they have remained below 143,000 during two-warrant months. At the same time, expenditures have shown a tendency to increase. We can compare the activity from the current month to activity one year ago:

	August, 1981	August, 1982	Change from August, 1981	% Change from August, 1981
Expenditures	$54,279,930	$64,635,428	+$10,355,498	+19.08
Recipients	126,672	121,940	- 4,732	- 3.74
Avg. Exp./Rec.	$ 428.51	$ 530.06	+$ 101.55	+23.70

As this simple chart indicates, expenditures are nearly 20% above last year. Moreover, the increase came as the current numbers of recipients fell below last year's level. As is indicated by the average expenditure per recipient, current expenditures would be even higher if the number of recipients matched the number from one year ago.

If we compare past and present distributions of recipients, we can determine the way in which different eligibility groups have contributed to the noted decline in the numbers of recipients.

	August, 1981	August, 1982	Change from August, 1981	% Change from August, 1981
Aged-SSI	8,363	7,624	- 739	- 8.84
Blind-SSI	289	273	- 16	- 5.54
Disabled-SSI	12,421	12,637	+ 216	+ 1.74
AFDC	65,663	59,325	-6,338	- 9.66
Aged-MAO	25,432	25,774	+ 351	+ 1.38
Blind-MAO	126	126	--	--
Disabled-MAO	7,984	8,461	+ 477	+ 5.97
AFDC-Related	1,357	2,296	+ 939	+69.20
Needy Children	5,037	5,424	+ 387	+ 7.68
	126,672	121,940	-4,732	- 3.74

It is clear that a large decrease in the number of AFDC recipients receiving MA is the major reason for the decrease in total recipients. This also helps to explain the increase in the average cost per recipient, since the average MA benefit received by an AFDC recipient is a small fraction of the average benefit to recipients in other eligibility groups.

The decline in the number of AFDC-MA recipients was caused by changes in AFDC eligibility that became effective in February, 1982. As a result, AFDC recipients comprised 48.65% of total MA recipients in August, 1982, although AFDC recipients were 51.83% of total MA recipients in August, 1981.

The table above also shows a great increase in AFDC-Related MA recipients. It appears that 900 former AFDC-MA recipients have shifted over to AFDC-Related MA.

TOTAL	121,940	$64,635,428	$130,391,994

(1) This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the month.

(2) Recipient recoveries represent collections such as estate settlements, tort recoveries, etc. ... generally third party collections which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.

(3) An additional $17,043 was paid out for EPSDT services during the month; however, these charges were billed in a different fashion and are included under other service types such as Public Health Clinic, Physician/Osteopathic Services, etc. Existing reports do not break these charges out separately.

TECHNICAL NOTES

Public Assistance Programs: Applications and Cases Table	Application activity for the AFDC Program does not include applications for medical only needs.
Minnesota Public Assistance Activity Table	Under MA, total Persons Concurrently Receiving AFDC are not included when calculating the total number of persons receiving assistance. This is done to unduplicate the total count since these people are already counted under the AFDC Program. The GA total net payment data is preliminary and subject to occasional change, so the figures for earlier months may be different from the figures originally published for those months.
Table I	This table does not include cases and payments made under the Emergency Assistance Program.
Table III	The sixteen (16) counties identified by the Census Bureau as metropolitan (i.e., SMSA) are separated into urban and suburban. The urban counties are Hennepin, Ramsey and St. Louis, and the suburban counties are the thirteen (13) other SMSA counties. These counties are noted (U) and (S) respectively. Two multi-county agencies are labelled as follows: F-M-W HSB includes Faribault, Martin and Watonwan Counties; Region VIII North includes Lincoln, Lyon and Murray Counties.
Tables VI & VII	Recipients are people on whose behalf payments were made during the specified month by the State's centralized medical payment system. Recipients are divided into two categories: (1) Those whose Medical Assistance eligibility is based on receipt of cash assistance from AFDC, SSI or MSA. (2) Those whose Medical Assistance eligibility is not based on receipt of cash assistance from those programs (MA-Only recipients).

GLOSSARY

EPSDT	Early and Periodic Screening, Diagnosis and Treatment
HMO	Health Maintenance Organization
Nursing Home ICF-I	Intermediate Care Facility (High Care)
ICF-II	Intermediate Care Facility (Minimum Care)
ICF-MR	Intermediate Care Facility (Mentally Retarded)
P.T., O.T., S.T. Audiology in Nursing Home	Physical Therapy, Occupational Therapy, Speech Therapy
State Institution MR (ICF)	Mentally Retarded, Intermediate Care Facility
SMSA	Standard Metropolitan Statistical Area is a county or a group of contiguous counties which contain at least one city of 50,000 population. In addition to the county or counties containing such cities, contiguous counties are included in such areas if they are essentially metropolitan in character and are socially and economically integrated.
TB	Tuberculosis

4/6/83 S4240-1 A

(b) Includes post-closing persons and cases.

PROGRAM NOTES

Aid to Families with Dependent Children (AFDC) Minor changes in paid cases were experienced in September, with only a slight overall increase of 0.2%. Practically no case change occurred in the urban and rural counties, whereas the suburban counties reported a rise of 1.3%. Paid Regular cases declined 106 (0.3%) in contrast to a 213 (3.8%) rise in the Unemployed Parents. Fewer Regular cases were paid in the urban (-115) and rural (-40) counties. Conversely, the suburban counties' Regular paid case load rose by 51. Unemployed Parents increased 5.0%, 5.3% and 1.9% for the urban, suburban and rural counties respectively.

Payments rose at a more rapid rate than cases, primarily the result of a reduction of IV-D refunds and a decline in earned income. Support collections were $280,483 less than in August, 1982. The Case Information File indicated that earned income for September, 1982 was $2,197,524, down $411,656 from June, 1982. Total approvals increased 221 (5.9%) cases, almost wholly within the SMSA counties. Of the total approvals, 1,983 (50.1%) were reopened cases. Unemployed Parent approvals totalled 870, a decrease of 96 (9.9%) compared with August.

Closings were 714 (23.5%) greater than in August, 1982. An unusual number of closings (200*) were due to net income exceeding standards for eligibility as a result of increased state or local payments. Most of the closings for this reason probably were due to the federal 10-week extension of unemployment insurance benefits, Federal Supplemental Compensation, which was effective beginning September 12, 1982. For every case closed, there were 1.1 cases opened.

Denials were 193 (36.9%) above August. The majority of the denials (63.0%) resulted from lack of cooperation, was at the request of applicant, or was due to excess net income and personal property.

The following table shows AFDC case activity for the July through September quarter. Note that most of the disposals (83.9%) are accomplished within 15 days and that only 6.7% require more than 30 days.

	Number		Length of Time (Days)		
	Recipients	Cases	0-15	16-30	31 & Over
A. AFDC applications:					
1. Pending from prior quarter		497			
2. Received during quarter		13,240			
3. Disposed of:		13,006			
a. Approved	32,237	11,251	9,693	946	612
b. Denied		1,755	1,221	274	260
4. Pending at end of quarter		731	266	259	206
B. AFDC discontinuances during quarter	28,595	9,861			

---

*Normally 20 to 40 cases are closed each month for this reason.

Reasons for closings pertaining to the July through September, 1982 quarter are listed below.

1.	No longer eligible child	669
2.	No longer deprived of support or care	641
3.	Resources exceed limits	72
4.	Income exceeds requirements:	
	a. Earnings increased	1,517
	b. Support for person inside home increased	18
	c. Benefits or pensions increased	446
	d. Support for person outside home increased	127
	e. Requirements reduced	1,048
5.	Moved or cannot locate	1,460
6.	Recipient initiative	2,894
7.	Gross earnings exceeding 150% Standard Basic Needs	562
8.	Expiration of the $30 and 1/3 disregard	59
9.	Other earned income	95
10.	Other (factor other than earned income such as lump sum)	253
	Total	9,861

Emergency Assistance (EA) This assistance program remained relatively steady, with cases averaging 1,120 and expenditures $340,566 during the first quarter of fiscal year 1983. One year ago, cases averaged 1,240 and expenditures $335,105 through this period.

In the current quarter, the composition of the case load was 63% AFDC and 37% non-AFDC. This represents a change from last year when the composition was 70% and 30% respectively.

The number of families receiving aid in September numbered 1,118, 14 (1.3%) more than August. Expenditures, by contrast, declined by $20,996 (6.0%) to $330,481.

The major changes occurred within the specific emergencies of Utilities -$21,125 (14.8%), Eviction from Shelter +$10,797 (8.7%), Migrant Family in Need -$5,185 (39.4%), Death -$2,441 (86.0%) and No Employment -$1,627 (13.2%).

Of influence in September was the changing composition of EA recipients. AFDC families increased by 46 (6.7%) and caused expenditures to rise $10,808 (5.5%). This, however, was checked by a decline in the number of non-AFDC (Other) families whose numbers fell by 32 cases (7.6%), thereby lowering expenditures by $31,804 (25.9%). This compositional change was especially noticeable in the major emergencies of Eviction and Utilities.

The increase in evictions was focused (65.8%) in Hennepin County, whose case load and expenditures advanced to 282 (+42) and $90,600 (+7,109) respectively. This resulted from an increase in the number of AFDC families (+48) requiring assistance although partially restrained by a decline (-6) in the non-AFDC "Other" segment. The impact of the decline in the "Other" segment was noteworthy, for its financial impact greatly exceeded its numerical change. As a result, it checked the $13,910 AFDC advance by $6,801. This $7,109 change in Hennepin County was further bolstered by an increase in AFDC families in suburban counties. They advanced by approximately $4,000, thus contributing to the $11,000 increase recorded by this category during the month.

The decline in utilities totalled $21,125 (14.8%). This resulted from lower activity in Hennepin and Ramsey County, off $13,461 (19.9%) and $9,081 (44.8%) respectively. Most of the statewide change, 52.9%, occurred within the non-AFDC "Other" category. The urban counties, particularly Hennepin -$3,846 (-15.2%), Ramsey -$6,670 (-91.0%), as well as the suburban counties -$2,090 (-21.6%), contributed to this decline. The AFDC change of -$9,958 was influenced by Hennepin County, whose expenditures fell $9,615. Ramsey County also experienced lower costs, down $2,411, but this was entirely offset by the suburban counties, which rose by $2,551. The table below displays these changes.

Utility Emergency
September 1982

		CHANGE FROM AUGUST					
		Total		AFDC		Non-AFDC	
	Expenditure	Payments	Percent	Payments	Percent	Payments	Percent
State	$122,069	-$21,125	-14.8%	-$ 9,958	-12.1%	-$11,167	-18.3%

Minnesota Supplemental Aid (MSA) This program displayed unusual stability during September, with the number of recipients and expenditures showing below average fluctuation. Persons served totalled 9,956 during the month. This was 41 (0.4%) more than August and was below the normal change of 49 cases per month experienced since fiscal year 1981. It should also be noted that during this 14-month interval, MSA case load has experienced an average attrition of 25 cases per month.

Expenditures for the month continued to hover just over the million dollar mark at $1,003,007. This was only $2,759 (0.3%) less than August and represents the smallest change experienced in the past 14 months. The variation in expenditures has been $26,538 since fiscal year 1981, with a range between -$63,555 and +$55,892 per month. During this period, expenditures have risen at a rate of $3,594 per month.

Minnesota Supplemental Aid as well as the federal Supplemental Security Income are programs providing long-term care. This can be observed by noting the following table showing length of time on assistance for Minnesota's MSA and SSI recipients. Though combined, it should be noted that most MSA recipients (84.5%) also receive SSI.

MSA and SSI
Length of Time on Assistance
September, 1982

Time in Years	Persons	Percent of Total
0 - 1	2,426	9.2%
1 - 2	2,609	9.9

15 - 20	1,739	6.6
20 - 25	565	2.1
25 and over	265	1.0%
Total	26,349	100.0%

Medical Assistance (MA) The Federal Fiscal Year (FFY) ended on September 30, with a total MA expenditure of $782,976,178. This produces an average monthly payment of $65,248,015 for 133,208 recipients. The monthly recipient rate was 61.78% compared to the 215,633 eligibles during a typical month.

The following table provides a comparison of these FFY data for recent years:

		MA Average Monthly Data			
FFY	Total Expenditures	Expenditures	Eligibles	Recipients	Recipient Rate
1982	$782,976,178	$65,248,015	215,633	133,208	61.78%
1981	668,852,837	55,737,736	226,749	137,170	60.49
1980	588,381,540	49,031,795	209,623	124,467	59.38
1979	475,626,253	39,635,521	200,377	117,030	58.40
1978	$425,858,198	$35,488,183	205,837	119,279	57.95%

Over this period, expenditures have increased by 83.86%, for an average annual growth of 16.45%. The average number of eligibles has risen only 4.76%. Similarly, the average number of recipients rose 11.68%, representing an average annual increase of 2.80%. The next table shows the year-to-year percentage changes for the average monthly data.

MA Average Monthly Data

FFY	Expenditures	Change from Prior Year	Eligibles	Change from Prior Year	Recipients	Change from Prior Year
1982	$65,248,015	17.06%	215,633	- 4.90%	133,208	- 2.89%
1981	55,737,736	13.68	226,749	8.17	137,170	10.21
1980	49,031,795	23.71	209,623	4.61	124,467	6.35
1979	39,635,521	11.69%	200,377	- 2.65%	117,030	- 1.89%
1978	$35,488,183	--	205,837	--	119,279	--

Apparently, the inflation of medical costs reimbursed under the MA Program causes increases in expenditures even when the number of recipients declines. Whether these influences are distributed throughout the program or limited to specific eligibility groups will be a topic for next month's report.

(1)This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the month.

(2)Recipient recoveries represent collections such as estate settlements, tort recoveries, etc. ... generally third party collections which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.

(3)An additional $4,525 was paid out for EPSDT services during the month; however, these charges were billed in a different fashion and are included under other service types such as Public Health Clinic, Physician/Osteopathic Services, etc. Existing reports do not break these charges out separately.

NOTE: Due to software problems, the Total MA Payments column of the MAO recipient table contained an omission of $10,000,000 for five consecutive months. This was Table VI during April, May, and June and Table VII during July and August. These errors should be corrected by adding $10 million to Hennepin County, Total Urban, and Total State under the Total MA Payments column.

Data subject to
minor changes.

(1)December, 1982 data subject to minor changes.
(2)AFDC "Grand Total" cases - December 1981 - unduplicated total; therefore, cases by segment will not add to total.
(3)MA "Grand Total" cases and persons for each month are unduplicated totals; therefore, counts by type of care will not add to totals.

TECHNICAL NOTES

Public Assistance Programs: Applications and Cases Table	Application activity for the AFDC Program does not include applications for medical only needs.
Minnesota Public Assistance Activity Table	Under MA, total Persons Concurrently Receiving AFDC are not included when calculating the total number of persons receiving assistance. This is done to unduplicate the total count since these people are already counted under the AFDC Program. The GA total net payment data is preliminary and subject to occasional change, so the figures for earlier months may be different from the figures originally published for those months.
Table I	This table does not include cases and payments made under the Emergency Assistance Program.
Table III	The sixteen (16) counties identified by the Census Bureau as metropolitan (i.e., SMSA) are separated into urban and suburban. The urban counties are Hennepin, Ramsey and St. Louis, and the suburban counties are the thirteen (13) other SMSA counties. These counties are noted (U) and (S) respectively. Two multi-county agencies are labelled as follows: F-M-W HSB includes Faribault, Martin and Watonwan Counties; Region VIII North includes Lincoln, Lyon and Murray Counties.
Tables VI & VII	Recipients are people on whose behalf payments were made during the specified month by the State's centralized medical payment system. Recipients are divided into two categories: (1) Those whose Medical Assistance eligibility is based on receipt of cash assistance from AFDC, SSI or MSA. (2) Those whose Medical Assistance eligibility is not based on receipt of cash assistance from those programs (MA-Only recipients).

GLOSSARY

EPSDT	Early and Periodic Screening, Diagnosis and Treatment
HMO	Health Maintenance Organization
Nursing Home ICF-I	Intermediate Care Facility (High Care)
ICF-II	Intermediate Care Facility (Minimum Care)
ICF-MR	Intermediate Care Facility (Mentally Retarded)
P.T., O.T., S.T. Audiology in Nursing Home	Physical Therapy, Occupational Therapy, Speech Therapy
State Institution MR (ICF)	Mentally Retarded, Intermediate Care Facility
SMSA	Standard Metropolitan Statistical Area is a county or a group of contiguous counties which contain at least one city of 50,000 population. In addition to the county or counties containing such cities, contiguous counties are included in such areas if they are essentially metropolitan in character and are socially and economically integrated.

PROGRAM NOTES

Aid to Families with Dependent Children (AFDC) Very little change in paid cases or total recipients was evident in October. A decline of 275 (4.8%) Unemployed Parent cases occurred but was not influential since it was largely offset by a rise of 237 (0.6%) Regular cases. All county categories reflected decreases in the Unemployed Parent segment and increases in the Regular segment. October payments rose by 4.8% as a result of reduced IV-D support collections of $791,444.

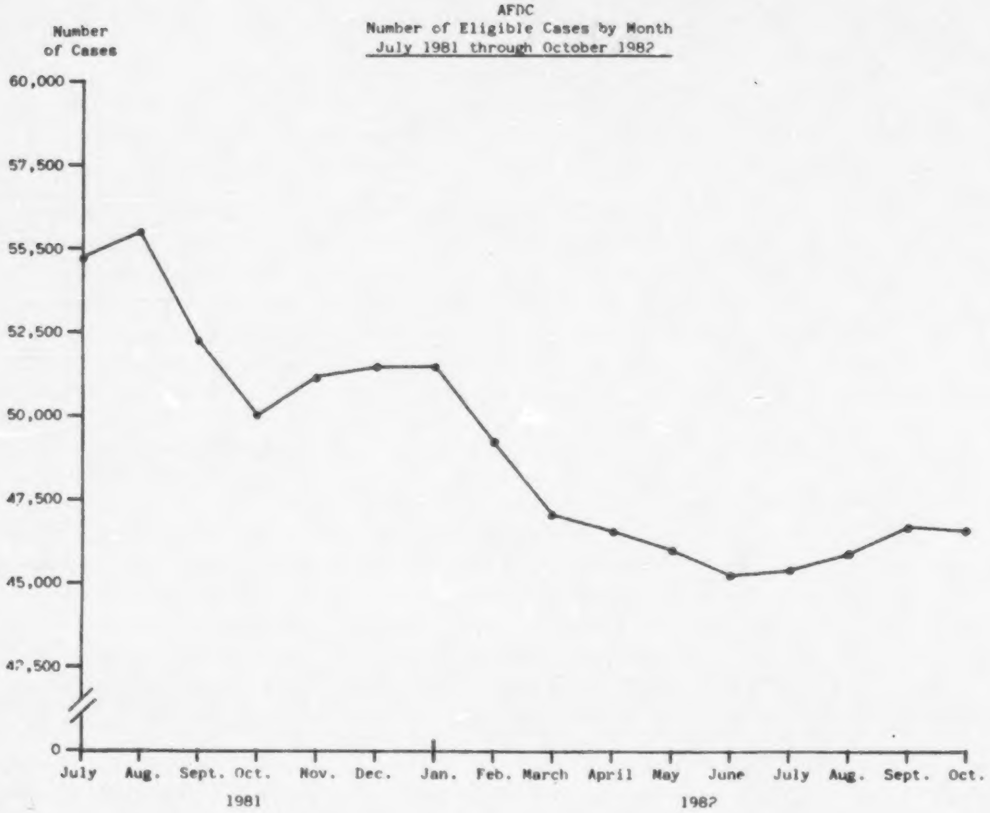
Unemployed Parent approvals diminished sharply, falling from 870 in September to 684 in October, down 186 (21.4%). This compares with a reduction of 116 (3.8%) in Regular case approvals in this same time period. The majority of the approved Unemployed Parent cases (72.7%) were opened due to loss or reduction in employment of the responsible or supporting household member due to layoff, discharge or by own initiative, whereas 71.5% of the Regular approved cases were eligible by continued absence of a responsible or supporting household member resulting in support being terminated or reduced. It is significant to note at this point that a federal extension to unemployment insurance benefits (Federal Supplemental Compensation) has been enacted and will be in effect from September 12, 1982 to March 31, 1983. The new benefit program provides for 10 weeks of additional unemployment insurance in Minnesota to those unemployed individuals who have exhausted their regular benefits after June 1, 1982, but who would have been eligible to receive benefits from this program if it had been in effect at the time they exhausted their benefits. It is anticipated this will reduce or slow down the increase in the Unemployed Parent case load in the immediate months.

Closings, on the other hand, were also down in contrast to September. Unemployed Parent case terminations descended to 750, down 130 (14.8%). Regular case closings fell 216 (7.5%). For every case closed, there were 1.08 openings.

The graph on the following page displays the number of eligible AFDC cases by month from July 1981 to October 1982. It shows the impact of both federal and state eligibility changes, but the history is complicated by overlapping effects and court orders which delayed or reversed the implementation of eligibility changes.

The decline from the July 1981 level to the level of December and January is largely attributable to termination of cases with stepparents. A policy of ineligibility based on the presence of a stepparent was implemented in July 1981 but enjoined by court order. The policy which was ultimately adopted was one of financial responsibility for stepparents, in agreement with changes in federal law which were effective October 1, 1981.

The dip in the number of cases in October 1981 reflects implementation of federal changes, which was again enjoined by court order, pending changes in state law. The revisions in state law were effective February 1, 1982. Initial implementation of these changes is reflected in the marked decline from January to March. The continuing impact of the changes is shown in the more gradual decline from March to June.



AFDC
Number of Eligible Cases by Month
July 1981 through October 1982

Emergency Assistance (EA) The number of families requiring assistance and the recipient total declined during October. Payments, however, increased in response to the advance in the number of families requiring help with utilities.

Families served numbered 1,058, 60 (5.4%) fewer than September. Fifty (50) of these declining cases, or 83.3%, were AFDC. The change in the "Other" segment by contrast was negligible at only -10 (-2.6%).

Expenditures totalled $358,894 during October, for a monthly rise of $28,413 (8.6%). Higher utility costs, up $33,622 (27.5%), were responsible. The non-AFDC "Other" category led the utility increase by rising $19,174 (40.5%) and was followed by AFDC at $14,448 (19.4%). The non-AFDC "Other" category also rose significantly, $6,965 (14.8%) within the Eviction category. This was not influential for it was checked by a corresponding decline in payments to AFDC families, down $6,673 (7.6%).

The following table shows the expense per case within the specified emergencies. Note that No Employment has the highest grant average at $387.97, but is followed closely by Eviction at $382.66, with Utilities a distant third at $350.66.

Emergency Assistance
Average Monthly Assistance by
Category of Emergency
October, 1982

Fire	$351.20	Eviction from Shelter	$382.66
Strike	310.00	Migrant Family in Need	260.45
Illness	348.00	No Employment	387.97
Accident	327.00	Utilities	350.66
Death	$ 70.00	Other	$212.77

Minnesota Supplemental Aid (MSA) The number of recipients in this program fell by 14 (0.1%) during October to 9,942. Payments, by contrast, advanced $16,147 (1.6%) between September and October to $1,019,154. Most of the recipient decline, 85.7%, occurred within the Aged category, which registered a loss of 12 persons (0.4%). The Blind and Disabled categories, by comparison, remained stable, changing by only 1 and -3 respectively.

Expenditures were influenced by higher payments to the Disabled, +$29,341 (3.8%), and Blind, +$426 (2.7%) offset to a large extent by lower payments to the Aged, -$13,620 (6.1%).

The table that follows shows the MSA Program from its inception in 1974 through the first quarter of fiscal year 1983. Based on the performance of the first quarter of fiscal year 1983, it appears that the year will show a greater attrition than the 2.2% recorded from fiscal year 1979 through 1982. At this point, MSA is showing a case decline of 2.6%, which is likely to increase as the months go on. Based on the first quarter of fiscal year 1983, an annual decline of over 3.0% is anticipated for the year (i.e., an annual average of 9,895 or less).

General Assistance (GA) In recent months, changes have occurred in the definition of marketable job skills. These changes have resulted in pronounced changes in the number of persons eligible for GA because of "a person who is unable to secure suitable employment due to a lack of marketable job skills". Effective March 24, 1982, DPW defined marketable job skills, thus removing local agency responsibility and authority to make this definition. DPW's definition was more restrictive than some local agencies' definitions, so the number of recipients in this eligibility category was reduced in April. Then, on September 23, 1982, a temporary injunction required local agencies to again use their former definitions. This has caused increases in this eligibility category in October.

Medical Assistance (MA) In order to continue the discussion of comparative expenditures for MA during recent federal fiscal years (FFYs), it is necessary to analyze the costs by eligibility category. The table on the following page shows the average monthly costs and recipients for the past five FFYs.

All categories of eligibility reflect the tendency of costs to increase, due to inflation, at a faster rate than the increase in the number of recipients. This is less pronounced in the AFDC and Needy Children categories, but the factor is present nonetheless.

While Aged-MA Only has the largest overall impact on costs, it does not increase the fastest, nor does its number of recipients show the largest rate of change. Its impact is solely a result of the massive costs associated with that eligibility category. The highest rate of increase in costs per recipient has been in the category of Aged SSI or MSA Recipients. Most of those costs result from long-term care. AFDC recipients, although the largest segment of the recipient population, have one of the smallest costs-per-recipient rate increases. The AFDC-Related eligibility group exhibits both the highest rate of cost increase and the highest rate of increase in the number of recipients. This group, however, still accounts for a very small portion of total MA recipients and costs.

TOTAL	133,321	$68,047,225	$265,723,288

(1)This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the month.

(2)Recipient recoveries represent third party collections such as health insurance payments, tort recoveries, and estate settlements, which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.

(3)An additional $3,840 was paid out for EPSDT services during the month; however, these charges were billed in a different fashion and are included under other service types such as Public Health Clinic, Physician/Osteopathic Services, etc. Existing reports do not break these charges out separately.

TECHNICAL NOTES

Public Assistance Programs: Applications and Cases Table	Application activity for the AFDC Program does not include applications for medical only needs.
Minnesota Public Assistance Activity Table	Under MA, total Persons Concurrently Receiving AFDC are not included when calculating the total number of persons receiving assistance. This is done to unduplicate the total count since these people are already counted under the AFDC Program. The GA total net payment data is preliminary and subject to occasional change, so the figures for earlier months may be different from the figures originally published for those months.
Table I	This table does not include cases and payments made under the Emergency Assistance Program.
Table III	The sixteen (16) counties identified by the Census Bureau as metropolitan (i.e., SMSA) are separated into urban and suburban. The urban counties are Hennepin, Ramsey and St. Louis, and the suburban counties are the thirteen (13) other SMSA counties. These counties are noted (U) and (S) respectively. Two multi-county agencies are labelled as follows: F-M-W HSB includes Faribault, Martin and Watonwan Counties; Region VIII North includes Lincoln, Lyon and Murray Counties.
Tables VI & VII	Recipients are people on whose behalf payments were made during the specified month by the State's centralized medical payment system. Recipients are divided into two categories: (1) Those whose Medical Assistance eligibility is based on receipt of cash assistance from AFDC, SSI or MSA. (2) Those whose Medical Assistance eligibility is not based on receipt of cash assistance from those programs (MA-Only recipients).

GLOSSARY

EPSDT	Early and Periodic Screening, Diagnosis and Treatment
HMO	Health Maintenance Organization
Nursing Home ICF-I	Intermediate Care Facility (High Care)
ICF-II	Intermediate Care Facility (Minimum Care)
ICF-MR	Intermediate Care Facility (Mentally Retarded)
P.T., O.T., S.T. Audiology in Nursing Home	Physical Therapy, Occupational Therapy, Speech Therapy
State Institution MR (ICF)	Mentally Retarded, Intermediate Care Facility
SMSA	Standard Metropolitan Statistical Area is a county or a group of contiguous counties which contain at least one city of 50,000 population. In addition to the county or counties containing such cities, contiguous counties are included in such areas if they are essentially metropolitan in character and are socially and economically integrated.
TB	Tuberculosis

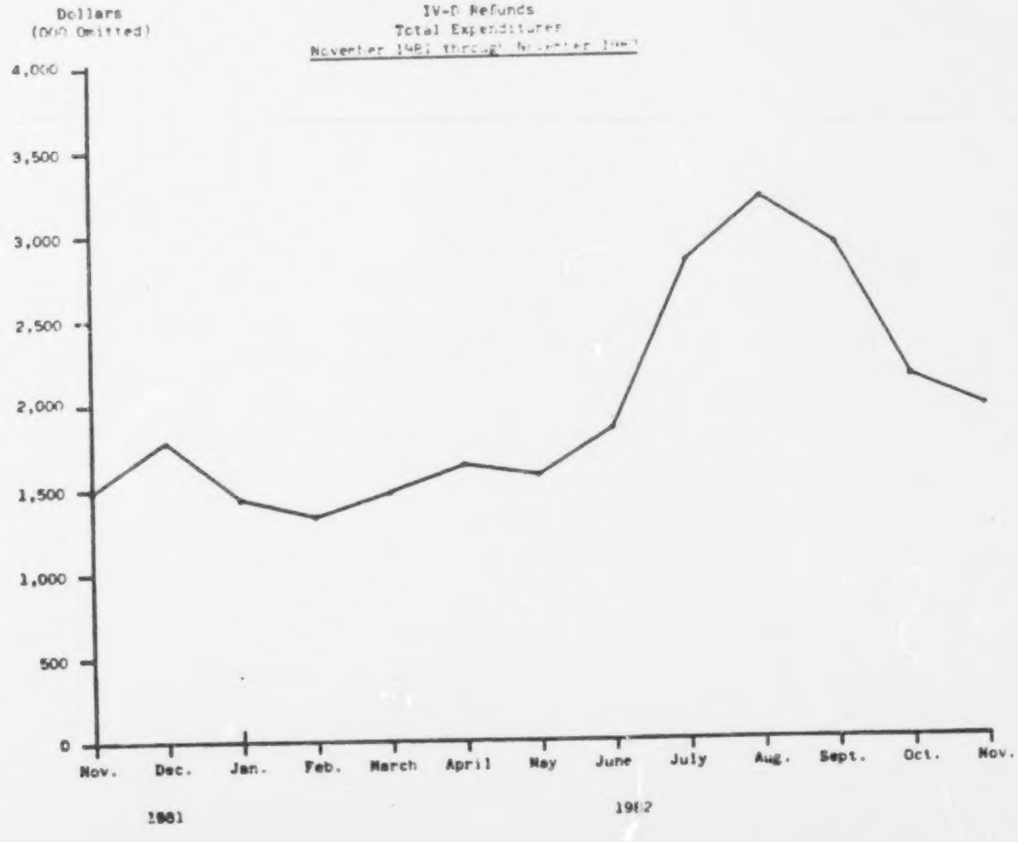
(a) Excluded when calculating the total persons for all programs.
(b) Includes post-closing persons and cases.

PROGRAM NOTES

Aid to Families with Dependent Children (AFDC) The number of families served by this program displayed another modest advance during November, rising by 96 (0.2%) to once again surpass 45,000. Since June, the norm has been monthly increases, with the exception of October. The major contributors to these increases were the economic condition of layoff, job termination and reduction of employment. Approvals show this clearly for, within the July to November period, these factors were 28% more numerous than in June 1982.

Expenditures during November totalled $16,012,179, an increase of $230,688 (1.5%) from the previous month. Reduced child support (IV-D) payments totalling $1,950,940 was the most prominent factor, falling below the previous month's total by $182,871 (8.6%).

Child support (IV-D refunds) frequently vary by significant amounts each month. This can be observed by the graph below covering the period from November 1981 through November 1982. For example, the months of July, August and September 1982 show unusually high contributions resulting from Project Intercept, a federal income tax refund interception process which allows support payments in arrears to be deducted from federal tax returns. Approximately $7,100,000 was collected through this process in fiscal year 1982, and the volume of the refunds fell into these three months. By October, signs of leveling off appear as refunds from the interception process dwindled to less than $300,000. Another factor affecting month-to-month fluctuations is the manner of county reporting, such as processing the refunds bimonthly or quarterly.



IV-D Refunds
Total Expenditures
November 1981 through November 1982

Emergency Assistance (EA) This program contracted as usual during November, with the number of families aided down 250 (23.6%) and expenditures off $115,232 (32.1%). Declines in the emergencies of Utilities and Eviction were primarily responsible for the changes experienced.

Case load declines occurred in both the AFDC (-23.0%) and non-AFDC "Other" (-24.8%) components. Expenditure changes, however, were not so evenly matched, for AFDC costs were down by 29.3% while non-AFDC costs fell by 36.1%.

Fewer members of cases and lower costs for evictions were experienced by both family types, as can be seen in the following table. Though recording similar declines, with AFDC off by $12,469 compared to "Other" down $13,479, the largest relative expenditure change occurred in the "Other" category. The greatest case load and expenditure changes occurred in the emergency of Utilities, with both the AFDC and "Other" categories displaying case and expenditure changes of 50% to 60%. This can also be seen below. These two emergencies represented 102.0% of the family decline and 97.7% of the monthly expenditure change.

During November, 888 families received Emergency Assistance at a cost of $243,662.

Eviction
Cases, Persons and Expenditures

Minnesota Supplemental Aid (MSA) November's recipients and expenditures fluctuated little from the previous month. Recipients numbered 9,890, off 52 (0.5%) from October while expenditures, at $1,020,474, advanced by only $1,320 (0.1%). In spite of this apparent stability, there were a number of changes occurring within the specific eligibility categories.

The greatest changes during the month occurred within the Aged category. Numbering 2,700, a record low, the number of Aged declined 31 (1.1%) from October and is 265 (8.9%) below one year ago. This lower recipient level failed to influence Aged payments, which posted an increase in November. Each Aged payment category contributed to the $14,648 (7.0%) advance during the month, particularly higher correctives, up $2,909 (52.9%), and lower refunds and cancellations, down $6,240 (37.1%). The total monthly Aged payment change is deceptive, however, because October's payments for this group may stand as a calendar year low.

Reduced payments for the Blind, off $1,054 (6.4%) and Disabled, down $12,275 (1.5%), together nearly negated the Aged payment advance. Fifty-seven percent (57%) of the decline in Disabled expenditures occurred in the urban counties.

General Assistance (GA) The total number of persons receiving GA for November, 1982, was 9,020. This was 484 (5.7%) more than October, 1982, and 1,651 (22.4%) more than November, 1981. The average grant (gross dollars) per person for November, 1982, was $211.78. This was $5.46 (2.5%) less than October, 1982, and $3.80 (1.8%) more than November, 1981.

Application activity increased compared to October. The number of applications received was 14.6% higher and the total applications on hand increased by 13.8%. The number of applications disposed of increased by 15.5% to 3,398. Of these, 2,500 (73.6%) were approved.

The 2,500 cases added in November brought the total cases eligible to 9,080. This was an increase of 7.5% compared to October. Payments were made for 7,894 (86.9%) of the eligible cases. There were 2,177 cases closed which left 6,903 eligible cases continued to December.

Medical Assistance (MA) The monthly expenditure for MA reached a new plateau, climbing 15.1% from October due to the processing of three warrant cycles during November. One-third of the increase was for recipients of AFDC, whose MA benefits comprised only 15.9% of the total expenditure. Similarly, one-sixth of the increase was expended for Needy Children, a category that received only 5.0% of the total MA benefit. However, this imbalance among recipient categories is a result of the distribution of payments for long-term care.

The variation in costs for long-term care is controlled by the number of days of care being paid and by rate adjustments that produce individual retroactive payments. Since 99.95% of all long-term care is provided for the aged, blind and disabled, the inevitable result is that the appropriate categories (OAA, AB, and AD, either CCR or MAO) are not greatly affected by an extra warrant cycle during a month. Only the ancillary care component would be affected for those who are recipients of long-term care, while any services provided other recipients would be directly affected. The costs associated with services other than long-term care represent only about 20% of total costs for aged, blind and disabled. An increase in that portion has only a small impact on the totals.

The eligibility categories that exhibit substantial increases during a three-warran month are those which involve an insignificant amount of long-term care. These ar shown in the following table:

Eligibility Category	AFDC	AFDC Related	Needy Children
Expenditure for:			
October	$ 8,890,031	$ 832,551	$2,405,934
November	12,481,347	1,476,517	3,945,134
% Change	+40.40	+77.35	+63.98
Average Expenditure Per Warrant Cycle in:			
October	$ 4,445,016	$ 416,275	$1,202,967
November	4,160,449	492,172	1,315,045
% Change	- 6.40	+18.23	+ 9.32
Average Expenditure Per Person Per Warrant Cycle in:			
October	$64.09	$152.26	$199.46
November	50.47	132.88	178.07
% Change	-21.25	-12.73	-10.72

As the table illustrates, average costs per recipient can (and did) drop, even though the payment of three warrant cycles provides an appearance of sharply increasing costs.

TOTAL	150,916	$78,305,752	$344,029,040

(1)This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the month.

(2)Recipient recoveries represent third party collections such as health insurance payments, tort recoveries, and estate settlements, which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.

(3)An additional $5,869 was paid out for EPSDT services during the month; however, these charges were billed in a different fashion and are included under other service types such as Public Health Clinic, Physician/Osteopathic Services, etc. Existing reports do not break these charges out separately.

TECHNICAL NOTES

Public Assistance Programs: Applications and Cases Table	Application activity for the AFDC Program does not include applications for medical only needs.
Minnesota Public Assistance Activity Table	Under MA, total Persons Concurrently Receiving AFDC are not included when calculating the total number of persons receiving assistance. This is done to unduplicate the total count since these people are already counted under the AFDC Program. The GA total net payment data is preliminary and subject to occasional change, so the figures for earlier months may be different from the figures originally published for those months.
Table I	This table does not include cases and payments made under the Emergency Assistance Program.
Table III	The sixteen (16) counties identified by the Census Bureau as metropolitan (i.e., SMSA) are separated into urban and suburban. The urban counties are Hennepin, Ramsey and St. Louis, and the suburban counties are the thirteen (13) other SMSA counties. These counties are noted (U) and (S) respectively. Two multi-county agencies are labelled as follows: F-M-W HSB includes Faribault, Martin and Watonwan Counties; Region VIII North includes Lincoln, Lyon and Murray Counties.
Tables VI & VII	Recipients are people on whose behalf payments were made during the specified month by the State's centralized medical payment system. Recipients are divided into two categories: (1) Those whose Medical Assistance eligibility is based on receipt of cash assistance from AFDC, SSI or MSA. (2) Those whose Medical Assistance eligibility is not based on receipt of cash assistance from those programs (MA-Only recipients).

GLOSSARY

EPSDT	Early and Periodic Screening, Diagnosis and Treatment
HMO	Health Maintenance Organization
Nursing Home ICF-I	Intermediate Care Facility (High Care)
ICF-II	Intermediate Care Facility (Minimum Care)
ICF-MR	Intermediate Care Facility (Mentally Retarded)
P.T., O.T., S.T. Audiology in Nursing Home	Physical Therapy, Occupational Therapy, Speech Therapy
State Institution MR (ICF)	Mentally Retarded, Intermediate Care Facility
SMSA	Standard Metropolitan Statistical Area is a county or a group of contiguous counties which contain at least one city of 50,000 population. In addition to the county or counties containing such cities, contiguous counties are included in such areas if they are essentially metropolitan in character and are socially and economically integrated.
TB	Tuberculosis

PROGRAM NOTES

Aid to Families with Dependent Children (AFDC) During December 1982, program expenditures grew in response to more families requiring assistance and reduced child support. The increase in families was focused in the Unemployed Parent category, which advanced by 603 (10.9%); however, the number of Regular families also contributed to the upswing by rising 238 (0.6%).

In the July through December 1982 period, a monthly average of 44,944 cases received payment at an average cost of $15,379,219 per month. The overall average payment per case during this period was $342.19. The expenditures for the six-month period totalled $92,275,314. Of the total costs, 83.3% was issued to the Regular cases and the remaining 16.7% was expended for Unemployed Parents. Payments received averaged $325.47 per Regular case and $459.54 per Unemployed Parent case. The following table shows the composition of cases by county type and their respective costs for the months of July through December 1982.

Cases and Payments by Segment
Within Type of County
July through December 1982

	Regular			Unemployed Parent		
	Average Monthly			Average Monthly		
	Cases	Payments	Total	Cases	Payments	Total
Total	39,339	$12,803,434	$76,820,603	5,605	$2,575,785	$15,454,710
Urban	20,311	6,975,707	41,854,239	2,238	1,013,059	6,078,354
Suburban	7,466	2,204,411	13,226,467	1,157	536,138	3,216,827
Rural	11,562	$ 3,623,316	$21,739,897	2,210	$1,026,588	$ 6,159,529

Note in the table above the similarity in case load and in expenditures that exists in the Unemployed Parent category between the urban and rural counties compared with the wide gap in the Regular category between these two county types.

Emergency Assistance (EA) During December, this program recorded another decline--the third consecutive month of reduced activity. Non-AFDC "Other" families were the focus of the change, experiencing a monthly reduction of 63 (22.1%) in families aided and $15,864 (16.9%) in costs.

Families requiring assistance numbered 746 during the month, 62 (7.7%) less than November and 190 (20.3%) fewer than one year ago. Expenditures, by comparison, experienced a monthly decline of $20,028 (8.2%) and a yearly departure of -$29,750 (11.7%). In the parameters of families and expenditures, the yearly comparison was influenced heavily by reduced activity in the non-AFDC segment. The following table portrays this yearly change.

Emergency Assistance
AFDC and "Other" (Non-AFDC) Segments Compared
December 1982 and December 1981

			Change	
	1982	1981	#	%
AFDC	$145,494	$157,427	-$11,933	(- 7.6%)
Other	78,140	95,957	- 17,817	(-18.6%)
Total	$223,634	$253,384	-$29,750	(-11.7%)

The emergency category displaying the greatest annual change was that of Utilities, which fell by 163 (55.3%) recipients and $27,546 (41.4%). The non-AFDC segment accounted for 33.1% of the recipient change and 34.9% of the annual decline in expenditures within this emergency. The largest emergency in December was Eviction. This problem was experienced by approximately 47% of the families during the month. The unspecified category of "Other" occupied second place at 32.2% while the Utility problem, in third place, was experienced by 25.2% of the families.

The following table shows case load and expenditure changes for the major emergencies of Utilities and Evictions for the 18-month period between July 1981 and December 1982.

Emergency Assistance
Utilities and Evictions Compared
July 1981 through December 1982

	Utilities		Evictions

November	229	75,298.93	335	109,134.22
December 1982	132	$ 39,412.66	352	$ 112,050.48

Minnesota Supplemental Aid (MSA) This assistance program was extremely stable during December, with only slight changes being recorded in the categories of recipients and expenditures. Recipients aided numbered 9,914, which was 24 (0.2%) more than November and 300 (2.9%) fewer than recorded one year ago. Expenditures, by comparison, totalled $1,019,608, only $866 less than November.

December's expenditure level subsided because of the $6,535 (2.9%) decline experienced in the Aged category. This was more than sufficient to overshadow the gains registered by the Blind +$2,118 (13.8%) and Disabled +$3,551 (0.5%) categories.

Greater numbers of cases affected by refunds and cancellations and the amount involved was the primary factor in determining final recipient and payment levels. The refund and cancellation total was heavily influenced by the nonurban counties, for these adjustments in the urban counties were only $8,916 (18.8%) higher than during November. St. Louis County alone accounted for most of this, witnessing a $7,304 (152.1%) increase and represented 81.9% of the urban refund and cancellation advance.

The table below shows recipients and expenditures for December and November after and before refunds and cancellations. As can be seen, the average monthly payment within the Aged category appear particularly susceptible to variations in these adjustments.

Total	9,890	$1,020,474	$103.18	10,039	$1,106,637	$110.23

General Assistance (GA) The total number of persons receiving GA for December, 1982, was 9,539. This was 519 (5.8%) more than November, 1982, and 1,856 (24.2%) more than December, 1981. The average grant (gross dollars) per person for December, 1982, was $210.75. This was $1.03 (0.5%) less than November, 1982, and $3.78 (1.8%) less than December, 1981.

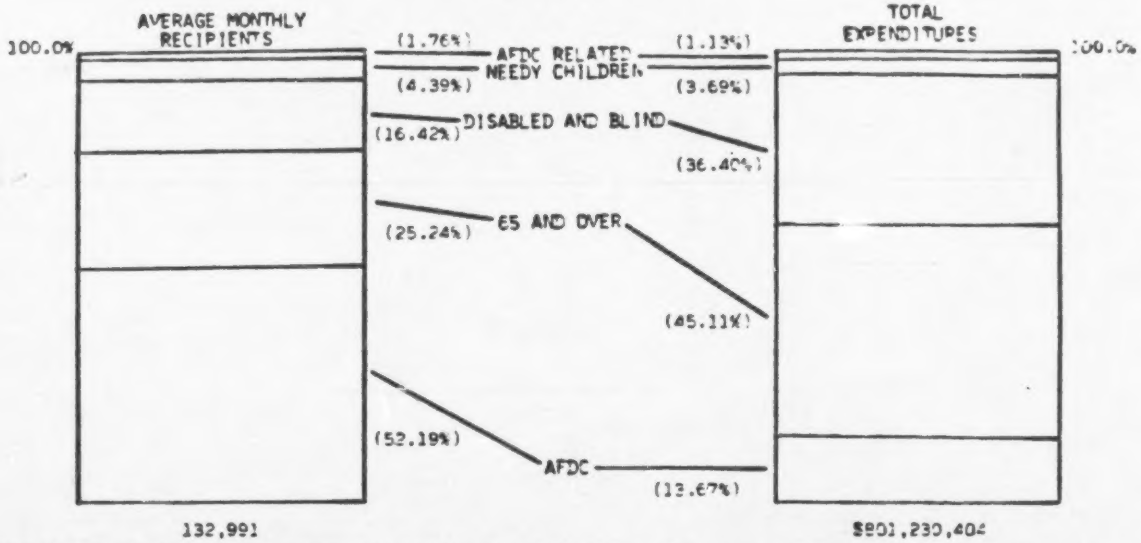
Application activity decreased compared to November. The number of applications received was 7.9% lower and the total applications on hand decreased by 7.5%. The number of applications disposed of decreased by 7.3% to 3,150. Of these, 2,435 (77.3%) were approved.

The 2,435 cases added in December brought the total cases eligible to 9,338. This was an increase of 2.8% compared to November. Payments were made for 8,301 (88.9%) of the eligible cases. There were 1,983 cases closed which left 7,355 eligible cases continued to January.

Medical Assistance (MA) Expenditures during calendar year 1982 topped the $800 million mark, increasing nearly $95 million from calendar year 1981. The reported level of $801,230,404 was 13.4% above last year. At the same time, the number of recipients slipped 3.6% to an average monthly figure of 132,991.

The average monthly payment for medical expenses was $502, ranging from as little as $132 for an individual receiving AFDC to as much as $1,113 for someone whose eligibility is for AB/AD. Average monthly payments for each of the other groups shown in the next graph include $289 for AFDC Related, $490 for Needy Children, and $897 for those eligible for OAA.

MEDICAL ASSISTANCE RECIPIENTS AND EXPENDITURES
BY BASIS OF ELIGIBILITY
CALENDAR YEAR 1982



Long-term care costs rose slightly faster than the general expenditure for MA, increasing by 14.4% compared to last year. Costs for ancillary care rose only 9.5%, resulting in an increase of 13.9% for long-term and ancillary care combined.

Since 1976, costs for MA have risen 144.1%. Meanwhile, expenditures for long-term care have increased by 177.8%, accompanied by a jump of 160.6% for ancillary care. These facts are illustrated in the following table, which shows the growth of these costs over the years. The relatively fast-growing costs for long-term and ancillary care are emphasized by the increase in the combined percentage rate.

Medical Assistance Expenditures
Total, Long-Term Care, and Ancillary Care
Calendar Years 1976 - 1982
(in thousands)

Year	Total	Long-Term Care	% of Total	Ancillary Services	% of Total	Combined Percentage
1976	$328,277	$191,696	58.4	$19,339	5.9	64.3
1977	394,821	246,107	62.3	22,347	5.7	68.0
1978	438,269	276,541	63.1	28,779	6.6	69.7
1979	518,568	336,077	64.8	35,494	6.8	71.7
1980	600,400	393,186	65.5	41,385	6.9	72.4
1981	706,463	465,726	65.9	46,024	6.5	72.4
1982	$801,230	$532,597	66.5	$50,394	6.3	72.8

The average net annualized increase over these years was 16.03% for the total. The comparable figure for long-term care was 18.57%, while the increase for ancillary services was 17.31%. These percentages further illustrate the relatively fast rates of growth for long-term care and ancillary care.

TOTAL	135,218	$69,413,670	$413,442,710

(1)This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the month.

(2)Recipient recoveries represent third party collections such as health insurance payments, tort recoveries, and estate settlements, which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.

(3)An additional $4,395 was paid out for EPSDT services during the month; however, these charges were billed in a different fashion and are included under other service types such as Public Health Clinic, Physician/Osteopathic Services, etc. Existing reports do not break these charges out separately.

1)AFDC, EA, MSA and GA - April 1983 data subject to minor adjustments.

2)AFDC "Grand Total" cases - April 1982 is an unduplicated count; therefore, cases by segment will not add to total.

TECHNICAL NOTES

Public Assistance Programs: Applications and Cases Table	Application activity for the AFDC Program does not include applications for medical only needs.
Minnesota Public Assistance Activity Table	Under MA, total Persons Concurrently Receiving AFDC are not included when calculating the total number of persons receiving assistance. This is done to unduplicate the total count since these people are already counted under the AFDC Program. The GA total net payment data is preliminary and subject to occasional change, so the figures for earlier months may be different from the figures originally published for those months.
Table I	This table does not include cases and payments made under the Emergency Assistance Program.
Table III	The sixteen (16) counties identified by the Census Bureau as metropolitan (i.e., SMSA) are separated into urban and suburban. The urban counties are Hennepin, Ramsey and St. Louis, and the suburban counties are the thirteen (13) other SMSA counties. These counties are noted (U) and (S) respectively. Two multi-county agencies are labelled as follows: F-M-W HSB includes Faribault, Martin and Watonwan Counties; Region VIII North includes Lincoln, Lyon and Murray Counties.
Tables VI & VII	Recipients are people on whose behalf payments were made during the specified month by the State's centralized medical payment system. Recipients are divided into two categories: (1) Those whose Medical Assistance eligibility is based on receipt of cash assistance from AFDC, SSI or MSA. (2) Those whose Medical Assistance eligibility is not based on receipt of cash assistance from those programs (MA-Only recipients).

GLOSSARY

EPSDT	Early and Periodic Screening, Diagnosis and Treatment
HMO	Health Maintenance Organization
Nursing Home ICF-I	Intermediate Care Facility (High Care)
ICF-II	Intermediate Care Facility (Minimum Care)
ICF-MR	Intermediate Care Facility (Mentally Retarded)
P.T., O.T., S.T. Audiology in Nursing Home	Physical Therapy, Occupational Therapy, Speech Therapy
State Institution MR (ICF)	Mentally Retarded, Intermediate Care Facility
SMSA	Standard Metropolitan Statistical Area is a county or a group of contiguous counties which contain at least one city of 50,000 population. In addition to the county or counties containing such cities, contiguous counties are included in such areas if they are essentially metropolitan in character and are socially and economically integrated.
TB	Tuberculosis

PROGRAM NOTES

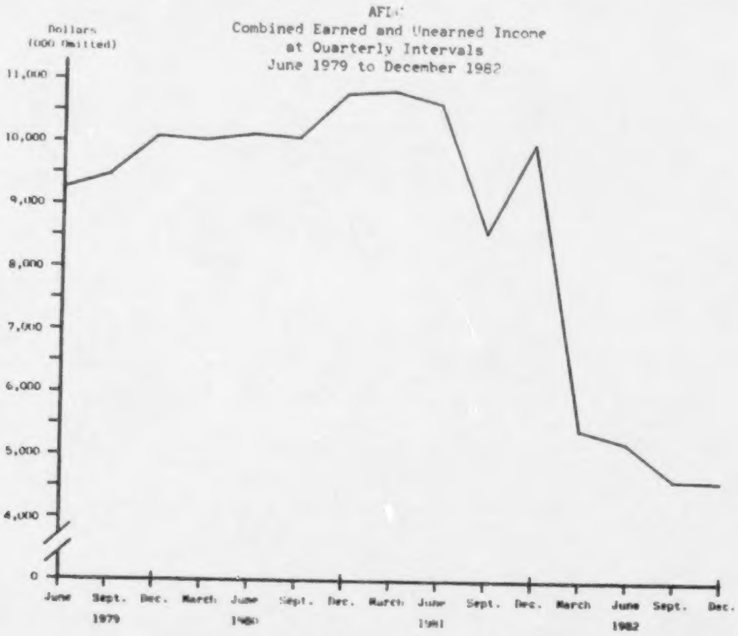
Aid to Families with Dependent Children (AFDC) January 1983 displayed increases in both cases and expenditures, thus following the normal seasonal trend for this program. Cases were up 861 (1.9%) and expenditures rose by $360,248 (2.1%). The major increase occurred in Unemployed Parents, which reported an advance of 603 (9.9%) cases and $302,609 (10.9%) in expenditures. In comparison, the Regular segment grew by only 258 (0.6%) cases and by $57,639 (0.4%) in costs.

The following graph depicts total income (earned and unearned) of AFDC families at quarterly intervals beginning with June 1979 and continuing through December 1982. The sharp decreases in September 1981 and March 1982 reflect closings implementing the Omnibus Budget Reconciliation Act of 1981. The dip in September 1981 is caused by closings effective October 1, 1981, which were later reversed by court order. The precipitate drop from December 1981 to March 1982 is due to closings effective February 1 and March 1, 1982.



AFDC
Combined Earned and Unearned Income
at Quarterly Intervals
June 1979 to December 1982

Emergency Assistance (EA) The Emergency Assistance Program displayed an across-the-board decline during January. A January decrease is a typical occurrence; however, this month's cases and expenditures mark new lows for this program.

There were 702 cases in January, 39 (5.2%) fewer than last month and 77 (9.8%) less than one year ago. January's case load sets a new record for it is the lowest recorded since the inception of this program in January 1972.

While the proportion of AFDC and non-AFDC (Other) families varies slightly from month to month, it should be noted that the case load is now primarily AFDC cases. AFDC families represented 67.5% of the case load in January compared to 61.0% in January 1982, 65.6% in January 1981, 54.8% in 1980, 54.6% in 1979, and 49.5% in January 1978.

Expenditures totalled $202,559 during the month. This is a departure of $21,074 (9.4%) from December and is $11,936 (5.6%) under the payment made one year ago. December's expenditure is the lowest registered since December 1973.

Eviction from Shelter and Utilities were the largest specified emergency categories. Eviction alone, at 328 cases and $109,333, represented 46.4% of the cases served during January and 54.0% of the expenditures. Utilities was a distant second with 122 cases and $30,126 and represented 17.3% of the cases and 14.9% of the monthly cost.

Since the emergency of Eviction was so predominant during the month, its current composition is shown below. Note that 72% of the cases involving evictions and 68.1% of the expenditures occurred in Hennepin County.

Minnesota Supplemental Aid (MSA) This program during January was marked by a small, nearly imperceptible, recipient increase and a large payment advance of $62,303 (6.1%). The payment change was brought about by higher current payments, greater corrective payments (rate adjustments for residents in board and care situations) and by lower refunds and cancellations. This payment increase ends the stationary payment pattern evident in the October - December quarter when expenditures were anchored at the $1.02 million mark.

Monthly recipients totalled 9,918, only four more than the previous month. Disabled cases recorded the greatest numerical change, advancing by 40 (0.6%), thereby negating the four case (1.2%) decline in the Aged category. The Aged recipient total of 2,688 represents a new low for this category.

Expenditures reached $1,081,911, thus shattering the previous record of $1,074,124 set in May 1982. Disabled payments led the advance with an increase of $59,741 (7.6%). Aged payments also rose but only by $4,782 (2.2%). This, however, was partially offset by a $2,221 (12.8%) decline in payments for the Blind.

The following table shows the monthly change in recipients, expenditures and average grants. Note the $119.43 average monthly payment within the Disabled category.

Minnesota Supplemental Aid
Changes in Recipients, Expenditures and Average Grant by Payment Category

	Recipients		Expenditures		Average Grant	
	Number	Mo. Change	Amount	Mo. Change	Amount	Mo. Change
Aged	2,688	-34(-1.2%)	$221,894	$ 4,782(2.2%)	$ 82.55	$ 2.79(3.5%)
Blind	156	- 2(-1.3%)	15,191	- 2,221(-12.8%)	97.38	- 12.83(11.6%)
Disabled	7,074	40(0.6%)	$844,825	$59,741(7.6%)	$119.43	$ 7.82(7.0%)

The urban counties were responsible for the $62,303 (6.1%) advance in monthly payments. Within the major areas of change (current +$16,028, corrective +$35,285, and refunds and cancellations -$13,645), they accounted for 79.5%, 81.8%, and 24.6% respectively.

General Assistance (GA) The total number of persons receiving GA for January 1983 was 10,406. This was 867 (9.1%) more than December 1982 and 2,707 (35.2%) more than January 1982. The average grant (gross dollars) per person for January 1983 was $212.03. This was $1.28 (0.6%) more than December 1982 and $2.41 (1.1%) less than January 1982.

Application activity increased compared to December. The number of applications received was 12.8% higher and the total applications on hand increased by 10.9%. The number of applications disposed of increased by 11.2% to 3,502. Of these, 2,851 (81.4%) were approved.

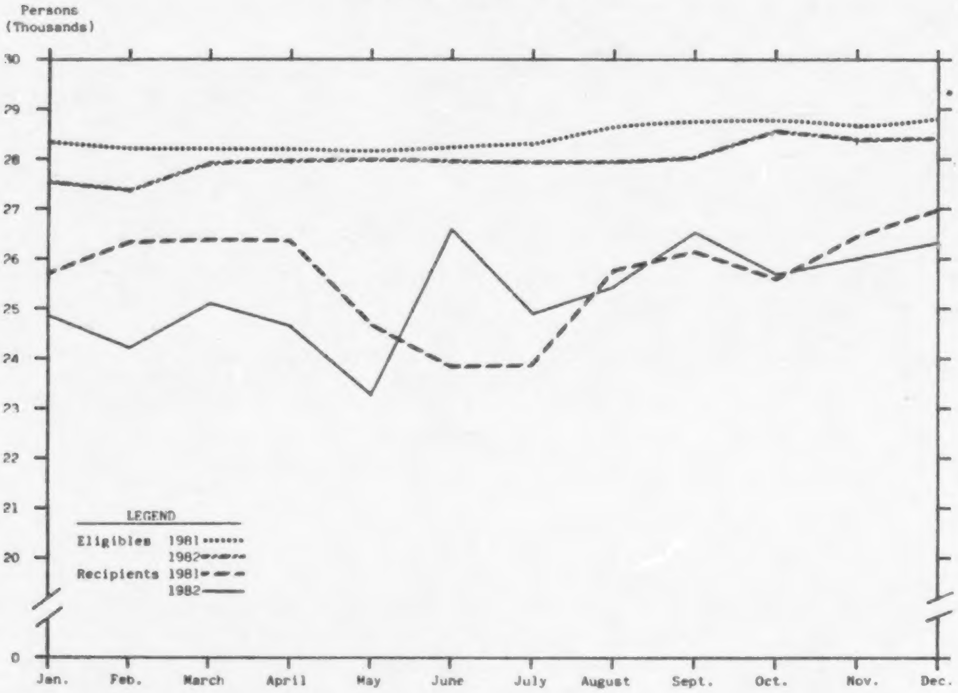
The 2,851 cases added in January brought the total cases eligible to 10,206. This was an increase of 9.3% compared to December. Payments were made for 9,200 (90.1%) of the eligible cases. There were 1,533 cases closed which left 8,673 eligible cases continued to February.

Medical Assistance (MA) The emphasis that is placed on costs of long-term care is clearly justifiable, particularly in view of the figures that were tabulated in this report last month. Those figures showed that 72.8% of all expenditures for Medicaid during calendar year 1982 were for long-term care (66.5%) and ancillary services (6.3%).

Since nearly 60% of all long-term care expense is allocated to aged recipients, those categories have a significant impact on the total program. However, medical payments for aged recipients of MSA or SSI are relatively insignificant, amounting to only half of one percent of the total program cost. Aged recipients of Medical Assistance Only (OAA-MAO) have benefits of about 40% of the total MA expenditure, and 90% of those benefits are for long-term care. This implies a substantial importance for recipients and costs of OAA-MAO.

The graph which follows compares eligibles and recipients for the past two years. The monthly average number of recipients rose from 25,295 in 1981 to 25,675 for 1982. Compared to the average eligible population of 28,000 (1981) and 28,444 (1982), the recipient rates are 90.34 and 90.26, respectively. The annual recipient rate remains relatively constant, while the monthly rate fluctuates markedly.

OAA-MAO
Eligibles and Recipients
Calendar Years 1981 and 1982



This graph shows a slight increasing year-to-year trend in number of OAA-MAO eligibles but no discernible trend in number of recipients. The monthly average number of recipients was higher in 1982, but in most months of 1982, the number of recipients was lower than in the same month one year earlier.

TOTAL	130,220	$70,709,653	$484,152,363

(1)This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the month.

(2)Recipient recoveries represent third party collections such as health insurance payments, tort recoveries, and estate settlements, which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.

(3)An additional $2,427 was paid out for EPSDT services during the month; however, these charges were billed in a different fashion and are included under other service types such as Public Health Clinic, Physician/Osteopathic Services, etc. Existing reports do not break these charges out separately.

TECHNICAL NOTES

Public Assistance Programs: Applications and Cases Table	Application activity for the AFDC Program does not include applications for medical only needs.
Minnesota Public Assistance Activity Table	Under MA, total Persons Concurrently Receiving AFDC are not included when calculating the total number of persons receiving assistance. This is done to unduplicate the total count since these people are already counted under the AFDC Program. The GA total net payment data is preliminary and subject to occasional change, so the figures for earlier months may be different from the figures originally published for those months.
Table I	This table does not include cases and payments made under the Emergency Assistance Program.
Table III	The sixteen (16) counties identified by the Census Bureau as metropolitan (i.e., SMSA) are separated into urban and suburban. The urban counties are Hennepin, Ramsey and St. Louis, and the suburban counties are the thirteen (13) other SMSA counties. These counties are noted (U) and (S) respectively. Two multi-county agencies are labelled as follows: F-M-W HSB includes Faribault, Martin and Watonwan Counties; Region VIII North includes Lincoln, Lyon and Murray Counties.
Tables VI & VII	Recipients are people on whose behalf payments were made during the specified month by the State's centralized medical payment system. Recipients are divided into two categories: (1) Those whose Medical Assistance eligibility is based on receipt of cash assistance from AFDC, SSI or MSA. (2) Those whose Medical Assistance eligibility is not based on receipt of cash assistance from those programs (MA-Only recipients).

GLOSSARY

EPSDT	Early and Periodic Screening, Diagnosis and Treatment
HMO	Health Maintenance Organization
Nursing Home ICF-I	Intermediate Care Facility (High Care)
ICF-II	Intermediate Care Facility (Minimum Care)
